In this gripping study of triumph and disaster, you'll discover the real-life love spat between the co-founders of Tinder which led to the creation of its competitor Bumble, the battle of the fast-fashion giants H&M and Zara where speed is everything, how Wrigley almost bit off more than it could chew, and how Nintendo leveled up in America. David Brown, host of the hit podcast *Business Wars*, masterfully frames some of the biggest business rivalries in history using the wisdom and pragmatic advice of revered Chinese military strategist Sun Tzu. Each battle Brown examines tells a story of contending wits, strategies, and resources. He chronicles the rise of companies as they formulate innovative plans, vanquish foes, and adapt to shifting societal needs. The goal: stay ahead of the competition and emerge victorious as an industry titan. The stories in *The Art of Business Wars* are fascinating, but the lessons we draw from them about determination, ingenuity, patience, grit, subtlety, and other key traits that contribute to a victorious enterprise are invaluable, whether you're a software-slashing freelancer or the CEO of a multinational corporation.

**Sun Tzu's the Art of War Plus the Art of Management** Gary Gagliardi, Sun Tzu, 2014-10-21

Two books in one: The complete text of the only award-winning English translation of Sun Tzu's *The Art of War*, plus a line-by-line adaptation for management called *The Art of Management*. Based on Gary Gagliardi's management use of Sun Tzu in building one of the Inc 500 fastest-growing companies in America and training scores of the world's best-known organizations in Sun Tzu's competitive strategy. Designed to appeal to managers in any type of organization, *The Art of War Plus The Art of Management* uses Sun Tzu's proven strategy to address the leadership challenges of directing people, resources, quality, and continual improvement in a modern organization. This is a work of translation, not only from the ancient Chinese to English, but from a military terminology to the language of modern management. It works because Sun Tzu wrote about competitive strategy as a battle of minds, not weapons. However, as defined by Sun Tzu, competitive strategy is not a system of strategic planning as often envisioned by managers. Planning, in the sense of prioritizing a list of activities, works in controlled environments where you can know how others will respond to your decisions. Competitive strategy works in environments where your decisions collide with the decisions of others, creating conditions that no one planned. Most managers are confused about the competition. This confusion often arises from two false dichotomies. The first is between competition and cooperation, thinking that since cooperation means working together, competition means working against others. The second false dichotomy is between

competition and production thinking that because production is productive competition must be destructive What people fail to see is that competition is essential to both cooperation and production
