**Story, Formation, and Culture** Benjamin D. Espinoza, James Riley Estep Jr., Shirley Morgenthaler, 2018-10-15. *Story Formation and Culture* brings together a myriad of scholars, researchers and ministry leaders into conversation about how we can effectively nurture the spirituality of children. Built around the three themes of story formation and culture, this volume blends cutting edge research and insights with attention to how we can bring theory into practice in our ministries with children. This volume seeks to equip pastors, leaders and scholars with cutting edge research and practices that effectively strengthen their ministries with children.

[A Head Start on Science](#) William C. Ritz, 2007-06. *A Head Start on Science* is a treasury of 89 hands on science activities specifically for children ages 3 to 6. The activities are grouped into seven stimulating topic areas: the five senses, weather, physical science, critters, water and water mixture, seeds, and nature walks. Because the activities have been field tested by more than a thousand Head Start teachers over 10 years, you'll find this collection unusually easy to use in a variety of settings, including elementary schools, pre K programs and day care. In addition to clear background and a helpful materials list, you get step by step procedures and help preparing for comments and questions children may pose. Each activity ends with a reproducible Family Science Connection in both English and Spanish to send home so the whole family can share a learning experience that's both simple and pleasant. Thanks to a focus on the fun of exploration and discovery, children probably won't be the only ones who find these activities irresistible. As Editor Bill Ritz writes in the Introduction, We hope your own sense of wonder will be heightened as you observe children and as their
