## **The Happy Profession:**

*The Good Work Guide* Nick Isles, 2013-05-13 As the world reels from the credit crunch and fall into recession of late 2008 the search is on for a better way to do business In an increasingly knowledge driven economy the importance of people's discretionary effort to business performance is key to success or failure but many businesses and managers do not understand the alchemy required to gain the extra few per cent from their human resources This new guide lays out how and why companies should be doing more to improve conditions for their staff It opens with a discussion of the latest thinking and research into the link between high performance outcomes and improvement in the quality of working life and looks at how organizations should approach creating good work in general The book then goes on to focus on action organizations can take in the key areas of autonomy and empowerment including time sovereignty work at home training job design health family fairness and conflict resolution including pay ethics diversity values the impact of climate change voice covering the role of technology and workplace careers and leadership It concludes with the 10 point plan for good work Filled with examples from actual companies and organizations on the ground and backed up by cutting edge research this is the essential management handbook that no business can afford to ignore

**The Good Work of Non-Christians, Empowerment, and the New Creation** Stuart C. Weir, 2016-04-25 Have you ever considered the ultimate purposes and consequences of good work performed by non Christians Have you ever theologically considered the work of non Christians at all Is it possible that God would ever give credence to let alone honor the work of non Christians in an ultimate sense Are you frustrated by theologies of work that are entirely protological in orientation How do we make sense of biblical excerpts that talk of work being judged towards a particular outcome The Good Work of Non Christians Empowerment and the New Creation attempts to answer these questions in a manner that also challenges evangelical assumptions about the ultimate outcomes of working life Drawing strength from eschatologically minded theologies by Miroslav Volf and Darrell Cosden Weir seeks to replace protology with eschatology in a theology of work about non Christians The British evangelical tradition is specifically taken up here so as to make critical assessments of certain airtight theologies regarding human action with reference to the new creation This book attempts to create a heuristic against unhelpful hermeneutical tendencies that inform evangelical theologies This is a work that is not only theological it is biblically historically and ethically rigorous
