of work performance not merely an interpretative option When musical cultures interact assimilation from within differs from destruction from without Even music subject to foreign influences can genuinely reflect the musical traditions and social values of a culture however Finally while most works are for live performance most performances are experienced via recordings which have their own distinctive characteristics This comprehensive and original analysis of musical ontology discusses many kinds of music and applies its conclusions to issues as diverse as the authentic performance movement the cultural integrity of ethnic music and the implications of the dominance of recorded over live music **The Complete**
