Heave-Up Gyeorgos C. Hatonn, 1994-08 *Romantic Paganism* Suzanne L. Barnett, 2018-02-05 This book addresses the function of the classical world in the cultural imaginations of the second generation of romantic writers Percy Shelley Mary Shelley Thomas Love Peacock John Keats Leigh Hunt and the rest of their diverse circle The younger romantics inherited impressions of the ancient world colored by the previous century in which classical studies experienced a resurgence the emerging field of comparative mythography investigated the relationship between Christianity and its predecessors and

scientific and archaeological discoveries began to shed unprecedented light on the ancient world The Shelley circle embraced a specifically pagan ancient world of excess joy and ecstatic experiences that test the boundaries between self and other Though dubbed the Satanic School by Robert Southey this circle instead thought of itself as Athenian and frequently employed mythology and imagery from the classical world that was characterized not by philosophy and reason but by wildness excess and ecstatic experiences

Undaunted Mind EMERITUS PROFESSOR OF ENGLISH KEVIN J. HAYES, Kevin J. Hayes, 2025-05-14 An exploration of the mind of one of America s most beloved Founding Fathers and most brilliant minds through the books he read and his social circles in the United States and Europe Arguably the most intellectual creative cosmopolitan and curious of the Founding Fathers Benjamin Franklin is the only top tier Founder not to have served as president Despite not becoming the Chief Executive Franklin played an active role in American politics and served the aspiring and young United States in the key European capitals His prodigious reading and appetite for learning are epic As he did in works about Thomas Jefferson and George Washington Kevin J Hayes interprets the life and mind of Franklin through what he read Undaunted Mind tells the story of

the development of Franklin's intellect starting with the earliest books he read as a child before examining his formal schooling and his independent study after his father pulled him from school. As an apprentice in his brother's printing house, Franklin's intellectual life developed through his contact with the Couranteers, the group of his brother's friends who contributed to his newspaper and through his attention to his brother's excellent office library. After Franklin ran away to Philadelphia, he developed a new group of friends, all of whom loved reading. In many ways, the story of Franklin's intellectual odyssey is the story of the friends he made along the way. His time in London in his late teens introduced him to several important intellectuals who encouraged him to develop his mind. After returning to Philadelphia from London, he and some friends formed the Junto, a club for mutual improvement that made reading and writing important activities. With other members of the Junto, he formed the Library Company of Philadelphia, the first subscription library in colonial America. His role as a printer put him in contact with the best eighteenth-century American writing and kept a steady flow of imported books coming from Britain. He became a scientist, assembling a great scientific library which helped his electrical research. An educational reformer, Franklin founded the Philadelphia Academy, which would become the University of Pennsylvania. As agent for the Pennsylvania Assembly, Franklin lived in London for many years, where he befriended some of Britain's greatest minds. Different concentrations of books in his library reveal Franklin's interests in travel and exploration, warfare, and slavery. His time in Paris toward the end of his life gave Franklin another great intellectual experience, but he ultimately returned home to live the last five years of his life in Philadelphia, where he imparted his knowledge and experience to a new generation of Americans. In this gripping work, Benjamin Franklin is given a biography as rich and complex as his own intellectual life by master literary historian Kevin J. Hayes.
