Rennie,Susan M. Stocklmayer,John K. Gilbert,2018-12-21 While much has been written about science education from pre K through to postgraduate study interaction with science and technology does not stop when schooling ends Moving beyond scholarship on conventional

education this book extends the research and provides an original in depth look at adult and lifelong learning in science and technology By identifying the knowledge and skills that individuals need to engage in self directed learning the book highlights how educators can best support adult learners beyond the years of formal schooling Through case studies and empirical analysis the authors offer a research based exploration of adults self directed learning and provide tools to support adults learning experiences in a wide range of environments while being inclusive of all educational backgrounds Merrill Chemistry Robert C. Smoot,Smoot,Richard G. Smith,Jack Price,1998 It's Debatable! Dana L. Zeidler,Sami Kahn,2014-02-01 Functional scientific literacy requires an understanding of the nature of science and the skills necessary to think both scientifically and ethically about everyday issues from the introduction to It's Debatable This book encourages scientific literacy by showing you how to teach the understanding and thinking skills your students need to explore real world questions like these Should schools charge a tax to discourage kids from eating unhealthy foods Should local governments lower speed limits to reduce traffic fatalities Should pharmaceutical companies be allowed to advertise prescription drugs directly to consumers At the core of the exploration is the Socioscientific Issues Framework The framework gives students practice in the research analysis and argumentation necessary to grapple with difficult questions and build scientific literacy After introducing the concept of the framework and explaining how it aligns with the Next Generation Science Standards the book shows you how to implement it through seven units targeted to the elementary middle and high school levels You even find out how to develop your own socioscientific issues curriculum Both practical and content rich It's Debatable doesn't shy away from controversy Instead the authors encourage you and your students to confront just how messy the questions raised by science and pseudoscience can be After all as the authors note The only way for our students to be prepared for participation in societal discourse is to have practice in their school years and what better place than the science classroom
