Rereading German History (Routledge Revivals) Richard J. Evans, 2015-06-05 In *Rereading German History* first published in 1997 Richard J Evans draws together his seminal review essays on the political economic cultural and social history of Germany through war and reunification This book provides a

study of how and why historians mainly German American British and French have provided a series of differing and often conflicting readings of the German past It also presents a reconsideration of German history in the light of the recent decline of the German Democratic Republic collapse of the Berlin Wall and the reunification of Germany Rereading German History re examines major controversies in modern German history such as the debate over Germany s special path to modernity in the nineteenth and twentieth centuries and the discussions in the 1980s on the uniqueness or otherwise of Auschwitz Evans also analyses the arguments over the nature of German national identity The book offers trenchant and important analytical insights into the history of Germany in the last two centuries and is ideal reading material for students of modern history and German studies

The Unification of German Education Val Dean Rust,Diane Rust,1995 This study of the integration of East and West German education following the collapse of the German Democratic Republic in 1989 focuses on policy formation and implementation during this period of great social and political turbulence It is the result of a research project undertaken shortly after the unification The authors lived in East Germany for a full year looking carefully at individual schools vocational training centers teacher colleges and universities They asked macro analytic questions What are the conditions in which educational policy is successfully formulated How is this educational policy implemented What are the consequences of this policy From the start West Germany demanded a complete dismantling of the educational system in the former German Democratic Republic West German political leaders insisted as a condition of unification that all important agreements concerning education made by the GDR states be accepted by the new states The authors research shows that even before the unification East Germans had already opted for a system consistent with West German education law However the West Germans disregarded these changes and imposed their own version of reform on East Germany The study reveals that in this period of confusion the East Germans did not fully analyze the implications of the imposed conditions which now have unforeseen negative consequences The German situation is of great interest to all educators particularly students of educational policy making as well as researchers in political science economics and sociology
