The National Live-stock Journal, 1875 **The Education Invasion** Joy Pullmann, 2017-03-14 Most Americans had no idea what Common

Core was in 2013 according to polls But it had been creeping into schools nationwide over the previous three years and children were feeling its effects They cried over math homework so mystifying their parents could not help them even in elementary school They read motley assortments of informational text instead of classic literature They dreaded the high stakes tests in unfamiliar formats that were increasingly controlling their classrooms How did this latest and most sweeping reform of American education come in mostly under the radar Joy Pullmann started tugging on a thread of reports from worried parents and frustrated teachers and it led to a big tangle of history and politics intrigue and arrogance She unwound it to discover how a cabal of private foundation honchos and unelected public officials cooked up a set of rules for what American children must learn in core K 12 classes and how the Obama administration pressured states to adopt them Thus a federalized education scheme took root despite legal prohibitions against federal involvement in curriculum Common Core and its testing regime were touted as an absolute game changer in public education yet the evidence so far suggests that kids are actually learning less under it Why then was such a costly and disruptive agenda imposed on the nation's schools Who benefits And how can citizens regain local self governance in education so their children's minds will be fed a more nourishing intellectual diet and be protected from the experiments of emboldened bureaucrats The Education Invasion offers answers and remedies

Education and Power in Contemporary Southeast Asia Azmil Tayeb, Rosalie Metro, Will Brehm, 2023-07-18 This book focuses on education and power in Southeast

Asia and analyzes the ways in which education has been instrumentalized by state non state and private actors across this diverse region. The book looks at how countries in Southeast Asia respond to the endogenous and exogenous influences in shaping their education systems. Chapters observe and study the interplay between education and power in Southeast Asia which offers varying political, social, cultural, religious and economic diversities. The political systems in Southeast Asia range from near consolidated democracy in Indonesia to illiberal democracy in Singapore and Thailand to the communist regime in Laos to absolute monarchy in Brunei. Structured in three parts i) centralization and decentralization ii) privatization and marketization and iii) equity and justice these themes are discussed in single country and or multi country studies in the Southeast Asian region. Bringing together scholars from and focused on Southeast Asia this book fills a gap in the literature on education in Southeast Asia.
