## **The Hellenistic Aesthetic:**

The Hellenistic Aesthetic Barbara Hughes Fowler, 1989 Fowler's own insights are apparent throughout and they seem to distill the personal appreciation and understanding of a scholar who has devoted much of her career to both contemplating and enjoying Hellenistic poetry. This book would make an excellent background text for courses in later Greek and Roman art and it can be read with profit by anyone interested in exploring the character of Hellenistic culture. J. J. Pollitt, *American Journal of Archaeology*. Outstanding is the range of examples discussed both in poetry and art. Theocritus, Callimachus, Appollonius, the epigrammatists and others that are the major figures of the time are considered at length and in several different contexts. Passages are quoted in the original Greek, translated and analyzed. Fowler's sensitivity to poetic forms evident in her other published writings is again evident here. In addition, however, the philosophical context is not overlooked. Also highly commendable are the liberal references to works of art. Sculpture in the round and in relief, portraits, terracotta figurines, original paintings, grave stelai and Campanian murals, mosaics, gold and silver vessels and jewelry are introduced at various points. Every work of art discussed is illustrated in astonishingly clear photographs which are interspersed in the body of the text. Christine Mitchell Havelock, *The Hellenistic Aesthetic*, provides classicists with their first thorough discussion of the aesthetic unity found in Hellenistic art and literature. Fowler examines parallels both in subject matter and in artistic approach among a diverse group of literary genres and artistic forms. In twelve chapters, *The Hellenistic Aesthetic* surveys Alexandrian epigrams, pastorals, epics, sculptural groups, mosaics, paintings and jewelry to supply a convincing and frequently unexpected picture of a unified aesthetic vision. Jeffrey Boller, *Classical Outlook*. The Hellenistic Aesthetic Barbara Hughes Fowler, 1989. An introduction to the Hellenistic Period (c. 323-27 BC) which saw the unification of the Mediterranean and Central Asia under the Greek culture and language. The author explores a range of subjects including poetry and literature, science, religion and art. Art in the Hellenistic World Andrew Stewart, 2014-10-06. This book offers a new thematic, contextualized and richly illustrated approach to art of the Hellenistic world (c. 330-30 BC). Art in the Hellenistic Age Jerome Jordan Pollitt, 1986-06-12. This 1986 book is an interpretative history of Greek art during the Hellenistic period.

**Art in the Hellenistic World** Andrew Stewart, 2014-10-06. What was Hellenistic art and what were its contexts, aims, achievements and impact? This textbook introduces students to these questions and offers a series of answers to them. Its twelve chapters and two focus sections examine Hellenistic sculpture, painting, luxury arts and architecture. Thematically organized, spanning the three centuries from Alexander to Augustus and ranging geographically from Italy to India and the Black Sea to Nubia, the book examines key monuments of Hellenistic art in relation to the great political, social, cultural and intellectual issues of the time. It is illustrated with 170 photographs, mostly in color and many never before published, and contextualized through excerpts from Hellenistic literature and inscriptions. Helpful ancillary features include maps, appendices with background on Hellenistic artists and translations of key documents, a full glossary, a timeline, brief

biographies of key figures suggestions for further reading and bibliographical references

**Greek Art and Aesthetics in the Fourth Century B.C.** William A. P. Childs,2018-04-10 Greek Art and Aesthetics in the Fourth Century B C analyzes the broad character of art produced during this period providing in depth analysis of and commentary on many of its most notable examples of sculpture and painting Taking into consideration developments in style and subject matter and elucidating political religious and intellectual context William A P Childs argues that Greek art in this era was a natural outgrowth of the high classical period and focused on developing the rudiments of individual expression that became the hallmark of the classical in the fifth century As Childs shows in many respects the art of this period corresponds with the philosophical inquiry by Plato and his contemporaries into the nature of art and speaks to the contemporaneous sense of insecurity and renewed religious devotion Delving into formal and iconographic developments in sculpture and painting Childs examines how the sensitive expressive quality of these works seamlessly links the classical and Hellenistic periods with no appreciable rupture in the continuous exploration of the human condition Another overarching theme concerns the nature of style as a concept of expression an issue that becomes more important given the increasingly multiple styles and functions of fourth century Greek art Childs also shows how the color and form of works suggested the unseen and revealed the profound character of individuals and the physical world *The Hellenistic Origins of Byzantine Art* Dmitrii Vlas'evich Ainalov,1961
