*Who Heals The Healer?* Pooja Subhash, 2025-06-12 Who heals the healer Who mends the soul When caring consumes and takes its toll The answer lies not far or near It lives within both hope and fear To heal another we must first find The fractured heart we left behind A journey inward slow and deep Where love awakes from restless sleep This book is more than words on page A map to break the binding cage From hurt to hope from loss to grace A mirror a guide a healing place This book isn't born from academic study but from lived experience from witnessing how even the strongest people the ones others turn to often have no one to turn to themselves With a deep interest in psychology philosophy and human behaviour I write not to teach but to reflect to ask questions that many carry but few speak aloud I wanted to create something that encourages readers to pause think and maybe see themselves and others in a new light I added softer forms like fictional stories and poems intentionally Because the topics are too tender to always be dissected in facts and theories A metaphoric point of view helps us understand what our own words cannot yet say If you find yourself in these pages even a little I hope you feel less alone I hope you pause and offer yourself some grace I hope you understand that living is not about perfection but about presence
