Law and Legal Institutions of Asia E. Ann Black, Gary F. Bell, 2011-03-10 The study of Asia and its plural legal systems is of increasing significance both within and outside Asia. Lawyers whether in Australia, America or Europe or working within an Asian jurisdiction require a sound knowledge of how the law operates across this fast growing and diverse region. Law and Legal Institutions of Asia is the first book to offer a comprehensive assessment of eleven key jurisdictions in Asia: China, Hong Kong, Taiwan, Japan, Korea, Vietnam, Malaysia, Indonesia, Brunei, Darussalam, Singapore and the Philippines. Written by academics and practitioners with particular expertise in their state or territory, each chapter uses a breakthrough approach facilitating cross jurisdictional comparisons and giving essential insights into how law functions in different ways across the region and in each of the individual jurisdictions. Weak States, Vulnerable Governments, and Regional Cooperation Atena Stefania Feraru, 2021-10-31 War, famine, poverty, organized crime, environmental catastrophes, refugees, epidemics, and pandemics, modern slavery: all these affect people in the non-Western world to an increasingly disproportionate extent. It is also where wealthy governments wield economic leverage and military force to renegotiate existing norms of international relations. Under these circumstances, it is difficult to overestimate the importance and urgency of comprehending the mechanisms and motivations driving these phenomena. This book is the outcome of a decade long effort to advance both theoretical and empirical understanding of what motivates non-Western governments' decisions to cooperate or not cooperate regionally. It starts by acknowledging the Western centrism of prevailing international relations theories, abandoning deeply entrenched assumptions regarding the nature and roles of states and redefining state weakness. The inquiry continues by elaborating this new concept and applying it to Southeast Asian polities while positing that it creates governments vulnerable to internal and external threats in line with Joel S. Migdal's well known findings on the topic. A set of regional cooperation strategies is then inferred based on the survival needs of insecure governing elites and its empirical validity is tested against the experience of regional organizations in Africa, Asia and the Americas. The second part of the book provides an in-depth examination of how Southeast Asian governments' shared security needs and interests shaped the emergence of the identified regional cooperation pattern and its evolution over 50 years of cooperation within the Association of Southeast Asian Nations (ASEAN). Overall, this book is a call to international relations scholars to do our part in understanding non-Western experiences and making a substantive contribution to addressing humanity's most intractable security threats.
