Literature of the Somali Diaspora Marco Medugno, 2024-07-11 The first study of Anglophone and Italian novels by Somali diasporic authors offering a new critical framework for multilingual and transnational analysis of Somali literature Building on the latest scholarship about multilingual contexts diaspora studies and the rapidly expanding field of Italian postcolonial studies Marco Medugno examines Somali diasporic literature with a comparative perspective Considering works written in English and Italian he argues that Somali diasporic authors share similar themes and aesthetics thus creating an interliterary community within the diaspora space By using multilingualism as a starting point Medugno provides significant insights into how Somali national and individual identities are constructed in diasporic global contexts through geography style form language and the re writing of national histories emerging out of colonization and independence Analysing acclaimed Somali novels such as Nuruddin Farah's *Links and Crossbones* Igiaba Scego's *Adua* and Cristina Ali Farah's *Little Mother* he questions any definition of local as provincial instead considering it a site for interrogating global concerns Literature of the Somali Diaspora is organized around three themes spatiality language and resistance help to contextualize authors forced by the decades long Somali Civil War to write outside Somalia and in different languages including Somali Italian English German Dutch and Arabic within global literary circuits Their work thus creates a literature not confined within national borders but an interliterary global community a transnational and multilingual space in which they share world aesthetic ideologies challenge and engage with literary traditions in different languages and show an interplay between diverse cultures

Somalia ... from the Sea Gary J. Ohls, 2009 From January 1991 through March 1995 the United States conducted numerous incursions into Somalia undertaking a variety of missions and objectives All of the actions had humanitarian elements yet the operations that made up this mosaic of American involvement ranged from benign to aggressive from purely humanitarian to clearly combative Somalia From the Sea is an account that attempts to explain and analyze these actions and place them within the overarching strategic and operational concepts developing in the first years following the end of the Cold War Introduction

Making Sense of Somali History Abdullahi, Abdurahman, 2017-09-18 In the last three decades Somalia has been associated with such horrible terms as state collapse civil wars foreign intervention warlordism famine piracy and terrorism This depiction was in contradiction to its earlier images as the cradle of the human race the kernel of ancient civilizations the land of Punt a homogeneous nation state and the first democratic state in Africa So

how did things fall apart in the country This Volume 1 of a two volume narrative Dr Abdullahi explores the history of the people of Somali peninsula since ancient times the advent of Islam and colonialism the rise and fall of Somali nationalism and the perspectives of the Somali state collapse The book uses a unique thematic approach and analysis to make sense of Somali history by emphasizing the responsibility of Somali political elites in creating and perpetuating the disastrous conditions in their country

Turkey in Africa Federico Donelli, 2021-04-08 Africa is increasingly becoming an arena for geopolitical competition over its resources and in the last two decades has seen many emerging powers such as China India Russia Japan and Brazil attempting to strengthen their ties with the continent Turkey's involvement has been much less discussed despite the fact that Turkey's strategic involvement with several sub Saharan African states has been deepening since its active engagement in the Somali crisis of 2011 Federico Donelli brings to light the extent of Turkey's involvement in Africa and analyses the unique characteristics benefits challenges and limits of Turkish policy in the region The book examines the Turkish diplomatic programme as well as its domestic reception which includes humanitarian aid religious links such as the OIC Organisation of Islamic Cooperation as well as private business links Crucially Donelli examines what makes Turkish involvement different from that of other international actors in the region its historic ties with North Africa under the Ottoman Empire

European Peace and Security Policy Michael Brzoska, 2015-03-26 After the attacks of 9 11 terrorism and other forms of transnational risks of violence dominated official security policy Researchers at the Institute for Peace Research and Security Policy at the University of Hamburg investigated the consequences of this change for security governance in a multi annual research program Case studies show that transnational security policies changed but that national governments remained dominant In other words the transnationalisation of threat perceptions only led to a limited internationalisation of security policies The volume presents results of the research program It combines conceptual work on security governance with empirical research for instance on counterterrorism changing perceptions of security in international organizations such as the European Union and the Organization for Security and Co operation in Europe

Putting security governance to the test Hans-Georg Ehrhart, Hendrik Hegemann, Martin Kahl, 2017-10-02 Recent debates in security policy have highlighted trends towards fragmentation informalisation and privatisation in the diverse field of security policy with its increasingly transnational security risks In this context the concept of security governance has risen to prominence and has inspired much valuable research Yet there are not only very different conceptual understandings of security governance there is also a lack of clarity regarding its empirical manifestations and normative connotations After a decade of research this book therefore puts security governance to the test and scrutinises its analytical and political pitfalls and potentials It reviews the concept of security governance and identifies central conceptual empirical and normative challenges that need to be addressed Moreover this book scrutinises critical examples of security governance from EU security policy as well as in a comparative regional perspective Case studies include EU efforts to counter piracy off the coast

of Somalia combat terrorism inside European societies and protect critical infrastructures This book was originally published as a special issue of European Security

Souare, 2007 Since the fall of the Siad Bare regime in Somalia in 1991 and the fratricidal war that it unleashed in its wake Somalia has been without an effective central government Instead warlords and their armed bandits have been controlling different parts of the country with the former British colony of northern Somaliland unilaterally proclaiming its independence Developments in the country since the recent transitional government was set up in 2004 have however presented both opportunities and challenges for the country While much has been reported about the prevailing situation in the country there has been a paucity of research articulating the various perspectives and challenges in the efforts to reconstitute Somalia s failed state This book hopes to contribute in filling this gap Contributors to the volume examine the various issues that lie behind the current situation in Somalia seeking answers to a number of crucial questions Why did the Somali state fail What role did external actors and the internal configurations of the Somalis socio political structure play in the state collapse Did the various peace and reconciliation conferences really achieve anything Should Somalia be reconstituted as one state or should more than one state be allowed to emerge from the ashes of the collapsed state What is the way forward out of the current imbroglio in Somalia
