Somatic Reality Stanley Keleman, 1982 Transitions, crises, changes, and turning points are part of each human life and they include bodily transitions and experience. How life changes are expressed somatically is the theme of *Somatic Reality*.

Somatic Descent Reginald A. Ray, 2020-08-25 A powerful meditation practice for connecting with your body's innate guiding wisdom. Have you ever had a gut feeling about a certain person or situation? Or a sense of intuition about how to respond to a particular challenge in your life? There's nothing magical or mystical about those kinds of scenarios.

In fact our body contains immense wisdom not directly available to our conscious mind and it is continually communicating to us in the form of bodily feelings impressions sensations corporeal intuitions and felt senses However because most of us are so cut off from our somatic experience we are quite unaware of this dimension of our body s expression Although this intelligence may feel hidden most of the time the wisdom of the body can actually be a guide for us in living our lives fully and also in responding compassionately to others Through a meditation practice called Somatic Descent Reggie Ray shows us how to connect with our body s intuitive intelligence In Somatic Descent we see that the body is always showing us what sort of response direction or action may be called for at any given time and can in fact be relied upon as a primary practical resource for decision making in our everyday life The book will include links to online audio recordings of the guided meditations to further aid the reader

A Primer on Unified Feel Theory Jerome Jacob Rappoport, 2006-06-02 For each of us life s dilemma can be reduced to two positions 1 The universe

always existed you exist for a fleeting moment and the universe continues on 2 The universe was created when you were born and it will cease to exist when you die Both of these perspectives are absolutely true and they pose for the inquirer a

dichotomous enigma Religion or what is purported to be so should be involved with these two aspects but it s not Unified

Feel Theory is not religion but a religious process to be experienced and struggled with by every inquiring mind singularly

and alone Not until the quintessential self is known by its own inquiring mind can it be of any meaningful service to its self or

to others Society has managed to intimidate and encapsulate each inner self to such a degree that only those aspects and

qualities needed and wanted by the collective are nurtured and allowed to make their presence known and be seen as the

outer self The Equilibrium Texts outfit and encourage an inward journey to seek rescue and bring forth one s own inner
