omnipotence and immortality which corresponds to a primary narcissistic fantasy the traces of which exist in various degrees in all of us Part of the popular International Psychoanalytical Association Psychoanalytic Ideas and Applications Series this book is unique in its focus on the narcissistic fantasy of the omnipotence of the self by means of an analysis of a variety of protagonists from the worlds of the performing arts and literature and on the exploration of their impact on the audience It will be of interest to psychoanalysts therapists and those with an interest in the intersection of psychoanalytic theory with film and literature
