Some Were Astronauts:

The Last of NASA's Original Pilot Astronauts David J. Shayler, Colin Burgess, 2017-06-19 Resulting from the authors deep research into these two pre Shuttle astronaut groups many intriguing and untold stories behind the selection process are revealed in the book The often extraordinary backgrounds and personal ambitions of these skilled pilots chosen to continue NASA's exploration and knowledge of the space frontier are also examined In April 1966 NASA selected 19 pilot astronauts whose training was specifically targeted to the Apollo lunar landing missions and the Earth orbiting Skylab space station Three years later following the sudden cancellation of the USAF's highly classified Manned Orbiting Laboratory MOL project seven military astronauts were also co opted into NASA's space program This book represents the final chapter by the authors in the story of American astronaut selections prior to the era of the Space Shuttle Through personal interviews and original NASA documentation readers will also gain a true insight into a remarkable age of space travel as it unfolded in the late 1960s and the men who flew those historic missions

Some Were Astronauts John Kuecken, 2005-03 A tale about the people who built the Apollo Space Project and a lawsuit involved

The Astronaut Maker Michael Cassutt, 2018-08-01

One of the most elusive and controversial figures in NASA's history George W S Abbey was called the Dark Lord the Godfather and UNO short for unidentified NASA official He was said to be secretive despotic a Space Age Machiavelli Yet Abbey had more influence on human spaceflight than almost anyone in history His story has never been told until now The Astronaut Maker takes readers inside NASA to learn the real story of how Abbey rose to power from young pilot and wannabe astronaut to engineer bureaucrat and finally director of the Johnson Space Center During a thirty seven year career mostly out of the spotlight he oversaw the selection of every astronaut class from 1978 to 1987 deciding who got to fly and when He was with the Apollo 1 astronauts the night before the fatal fire in January 1967 He was in mission control the night of the Apollo 13 accident and organized the recovery effort Abbey also led NASA's recruitment of women and minorities as space shuttle astronauts and was responsible for hiring Sally Ride Written by Michael Cassutt the coauthor of the acclaimed astronaut memoirs DEKE and We Have Capture and informed by countless hours of interviews with Abbey and his family friends adversaries and former colleagues The Astronaut Maker is the ultimate insider's account of ambition and power politics at NASA

Fallen Astronauts Colin Burgess, Kate Doolan, 2003-12-01 The author serves up a touching long overdue tribute to the astronauts who died while pursuing their very difficult jobs including the victims of the Apollo fire and the two Gemini astronauts killed in a plane wreck as well as others Simultaneous History

NASA's First Space Shuttle Astronaut Selection David J.

Shayler, Colin Burgess, 2020-07-10 Unofficially they called themselves the TFNG or the Thirty Five New Guys Officially they were NASA's Group 8 astronauts selected in January 1978 to train for orbital missions aboard the Space Shuttle Prior to this

time only pilots or scientists trained as pilots had been assigned to fly on America's spacecraft but with the advent of the innovative winged spacecraft the door was finally opened to non pilots including women and minorities In all 15 of those selected were categorised as Pilot Astronauts while the other 20 would train under the new designation of Mission Specialist Altogether the Group 8 astronauts would be launched on a total of 103 space missions some flying only once while others flew into orbit as many as five times Sadly four of their number would perish in the Challenger tragedy in January 1986 In their latest collaborative effort the authors bring to life the amazing story behind the selection of the first group of Space Shuttle astronauts examining their varied backgrounds and many accomplishments in a fresh and accessible way through deep research and revealing interviews Throughout its remarkable 30 year history as the workhorse of NASA's human spaceflight exploration twice halted through tragedy the Shuttle fleet performed with magnificence So too did these 35 men and women swept up in the dynamic thrust and ongoing development of America's Space Shuttle program This book on the Group 8 Astronauts the TFNGs is an excellent summation of the individuals first selected for the new Space Shuttle Program It provides insight into what it took to first get the Space Shuttle flying For any space enthusiast it is a must read Robert L Crippen PLT on STS 1 As a reader I had many moments where long lost memories of the triumph and tragedy of the space shuttle program were brilliantly reawakened at the turn of a page Loved it This is a must have book for every space enthusiast's library TFNG Mission Specialist Astronaut Richard Mike Mullane author of Riding Rockets The Outrageous Tales of a Space Shuttle Astronaut Many of the anecdotes in the book brought back memories of challenges opportunities and a team of men and women who were committed not just to the space program but to one another I've gone back to it several times as a reference source TFNG Steve Hawley 5 time Space Shuttle Mission Specialist Astronaut The TFNG book is incredible and amazingly thorough The detail in the book is awesome It is my go to book for any of the details I've forgotten TFNG Dr Rhea Seddon 3 time Space Shuttle Mission Specialist Astronaut I can't believe how detailed and complete it is FANTASTIC work TFNG Robert L Hoot Gibson 5 time Space Shuttle Pilot Commander and former Chief of the NASA Astronaut Office **Florida's Space Coast** William B. Faherty, 2024-03-05 An important interesting study of the relations between the Kennedy Space Center and the communities of Brevard County Florida Roger D Launius chief historian NASA Washington D C This outstanding book provides readers of Florida history our first insight into the impact that high technology has had on the state Brevard County is a veritable laboratory for understanding what happens when space science and engineering put down roots in a wilderness setting Faherty's writing is direct simple even folksy at times I devoured it Michael Gannon author of Pearl Harbor Betrayed and A Short History of Florida Florida's Space Coast tells the compelling story of America's half century in space exploration from the successful launch of the first two stage rocket in 1950 through the latest space shuttle missions of 2000 Told from the unique viewpoint of the people who built the Spaceport this book shows how the space program transformed the east central Florida coast from a traditional citrus production and

tourist area to one of the most influential high tech centers in the nation Cape Canaveral was chosen as a missile launch site because of its many geographical advantages However in the early years of the space program the area was far from an ideal place for NASA employees to raise their families NASA brought in thousands of space related workers who besides sending machines and men into space had to meet the challenge of moving their families from urban environs to a rural southern county This book engagingly recounts the parallel stories of the establishment of America s space program and its impact on the development of Brevard County William Barnaby Faherty is professor emeritus of history at St Louis University and director of the Museum of the Western Jesuit Missions in Hazelwood Missouri *Congressional Record* United States.
