PRIMER STRENGTHS AND WEAKNESSES OF THE 2005 DRAFT COMPACT AND AGREEMENT The following is a quickie approach to the highs and lows of the new 2005 draft The 2005 draft is not based on the principle from the 2004 draft that a user outside the basin has the same rights to water as a user in the basin or in straddling counties On the other hand others suggest that the realities of consolidated utilities across the basin divide and the withdrawal of Great Lakes water by over pumping groundwater just outside the basin divide make it advisable to bring both straddling and nearby communities into the management regime *Memos to the Prime Minister* Harvey Schachter, 2001-09-25 *Memos to the Prime Minister* is for every Canadian concerned about this country's future In the current political climate there is an unprecedented level of frustration with our national government and its almost complete lack of opposition Faced with mounting scandals real economic and social issues but little political choice we all feel an acute sense of despair over the leadership and policies being offered by the nation's political parties This book assembles a stellar group of contributors from across the country and wide ranging fields business healthcare think tanks policy groups education the arts and others to paint a vision for Canada on a broad social canvas Their memos offer new advice for the old guard Whether impassioned pleas practical advice thoughtful reflections or reasoned arguments the memos focus on prescriptions for the country's leaders not on rehashing the old familiar problems *Memos to the Prime Minister* is a provocative look at the present and future of Canada and will contribute to the national debate on the political economic and social issues that matter most to Canadians **Sessional Papers of the Parliament of the Dominion of Canada** Canada.
