This issue and related concerns are thoroughly examined in *International Capital Markets in a World of Accounting Differences*. Inside this thought-provoking volume, financial practitioners and scholars debate the impact of international accounting differences, accounting measurement rules, financial disclosure requirements, and/or differences in auditing standards on decision making in today's capital markets. You'll find insightful analyses of such topics as international GAAP differences and their effects on firms' accounting differences and securities markets regulations, international regulatory initiatives and policy alternatives, and strategic options for minimizing global accounting diversity. Concerns about the effect of accounting diversity on capital markets have sparked a renewed interest in harmonizing accounting and reporting standards worldwide. *International Capital Markets in a World of Accounting Differences* challenges and analyzes the validity of these concerns and offers strategic alternatives for making more informed decisions in the world's capital markets. **BOOK JACKET Title Summary** field provided by Blackwell North America Inc.
