The Greatest Trust in the World Charles Edward Russell,1905 Pure Food James Harvey Young,2014-07-14 Pure food became the rallying cry among a divergent group of campaigners who lobbied Congress for a law regulating foods and drugs James Harvey Young reveals the complex and pluralistic nature not only of that crusade but also of the broader Progressive movement of which it was a significant strand In the vivid style familiar to readers of his earlier works *The Toadstool Millionaires* and *The Medical Messiahs* Young sets the pure food movement in the context of changing technology and medical theory and describes pioneering laws to control imported drugs and domestic oleomargarine He explains controversy within the pure food coalition showing how farming and business groups sought competitive commercial advantage while consumer advocates wished to promote commercial integrity and advance public health The author focuses on how the public became increasingly fearful of hazards in adulterated foods and narcotic nostrums and how Congress finally achieved the compromises necessary to pass the Food and Drugs Act and the meat inspection law of 1906 Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *A Great Faith Described and Inculcated* Isaac BACKUS,1805
