The Human Imperative:

The Human Imperative Paul Nemitz, 2023-11-25 This important new book is about power in the age of Artificial Intelligence It looks at what the new technical powers that have accrued over the last decades mean for the freedom of people and for our democracies AI must not be considered in isolation but rather in a very specific context the concentration of economic and digital technological power that we see today Analysis of the effects of AI requires that we take a holistic view of the business models of digital technologies and of the power they exercise Technology economic power and political power are entering into ever closer symbiosis Digital technologies and their corporate masters now know more than people know about themselves or governments know about the world These technologies accumulate more and more decision making powers Taken together this leads to a massive asymmetry of knowledge and power in the relationship between man and machine The classical models of action and decision making in democratic societies are being gradually undermined by such developments In a new way the question of the control of technical power arises This is the first book to look in detail in a holistic way at the challenges of digital power and Artificial Intelligence to Democracy and Liberties and to set out what can and needs to be done about these challenges in terms of engineering ethics and democratic action of policy making and legislation Key audiences are scholars in media sciences political sciences computer sciences and engineering law and philosophy as well as policy makers corporate and civil society leaders and the educated public Adapted and updated from the original German language book *Prinzip Mensch Macht Freiheit und Demokratie im Zeitalter der Künstlichen Intelligenz* published 2020 by Verlag J H W Dietz Nachf GmbH The Human Imperative Alexander Alland Jr., 1972-05-22 The Human Imperative **The Human Imperative** Alexander Alland (jr.), 1972 *Do Big Things* Craig Ross, Angela V. Paccione, Victoria L. Roberts, 2017-08-16 An inspiring practical and progress oriented blueprint for energetic achievement Amid constant swirl uncertainty and complexity is your team capable of doing big things Too often people are pulled together labeled a team given a directive and expected to deliver results quickly Soon however due to lack of focus increasing pressures and competing priorities the team suffers from DSD distracted hopelessly stressed and disconnected from one another Predictably the team flatlines and the energy needed to succeed is lost Based upon research of what successful teams do to overcome severe odds *Do Big Things* presents an intuitive seven step process that equips teams with how to quickly and consistently operate in a manner necessary for success Team members develop the self awareness and ability to Bring their best to every situation Bring out the best in others in every interaction Partner across the business to deliver common objectives Filled with practical tools and engaging stories of teams today *Do Big Things* equips leaders with the how to quickly identify and activate the behaviors needed to achieve more than you or your team ever thought possible Idea and information exchanges interlock the hand head and heart of each team member to get everyone moving toward a common goal Increasingly individually and collectively the team becomes emotionally stronger and more productive as they do their

work Do Big Things provides your team with the common language necessary to be authentic empathetic and transparent so that potential barriers to success come to light faster This empowers the team to be more accountable with an enterprise mindset because they can have the profound discussions needed to adapt quicker to unforeseen challenges and demonstrate an innovative reflex By applying the concepts in this book the team s daily interactions are transformed focus is sustained and energetic progress toward your goals is triggered Every member of your team wants to succeed Do Big Things provides a straightforward method to bring greater meaning to the work everyone does so the team delivers extraordinary performance together You know what your team can achieve now use the proven method to enable them to do it *The Human Imperative* ,1974 Technology and Responsibility P.T.
