## **Some Warm Hunger:**

*I Was a Doctor in Auschwitz* Gisella Perl, 2019-02-28 Gisella Perl's memoir is the extraordinarily candid account of women's extreme efforts to survive Auschwitz. With writing as powerful as that of Charlotte Delbo and Ruth Kluger, her story individualizes and therefore humanizes a victim of mass dehumanization. Perl accomplished this by representing her life before imprisonment in Auschwitz and other camps and in the struggle to remake her life. It is also the first memoir by a woman Holocaust survivor and establishes the model for understanding the gendered Nazi policies and practices targeting Jewish women as racially poisonous. Perl's memoir is also significant for its inclusion of the Nazis' Roma victims as well as in-depth representations of Nazi women guards and other personnel. Unlike many important Holocaust memoirs, Perl's writing is both graphic in its horrific detail and eloquent in its emotional responses. One of the memoir's major historical contributions is Perl's account of being forced to work alongside Dr. Josef Mengele in his infamous so-called clinic and using her position to save the lives of other women prisoners. These efforts, including infanticide and abortion topics that would remain silenced for decades and unfortunately continue to be marginalized from all too many Holocaust accounts. After decades out of print, this new edition will ensure the crucial place of Perl's testimony on Holocaust memory and education. [The Hunger of Crows](#)

Richard Chiappone, 2021-11-09 For fans of Dana Stabenow and *The Frozen Ground*, Richard Chiappone's debut novel is a chilling chase through rural Alaska in which a woman running from her past must outwit the deadly assassins on her tail. Thirty-something Carla Merino finds herself living in her camper shell in Homer, Alaska, waitressing to stay afloat and hiding from ruthless billionaire military contractor Gordon McKint, who has a secretive personal army and eyes on the presidency. McKint is determined to recover a memento Carla acquired on a one-night stand that went terribly wrong: an item that could bring his whole world down. When McKint's men track her to Homer, she leaves for another hideout by boat, unprepared and unaware of the dangerous Alaskan weather headed her way. Cosmo D'Angelo, a former CIA gunslinger, is a man grieving his daughter, living with the sins of his past and in search of a certain woman and a good meal in small-town Alaska. In the era of political secrets and deep fake technology, he was foolish to let Carla take a memento of their tryst. Now he needs to get it back before McKint's men find her. Scott Crockett is a stand-up guy nursing a broken heart out fishing alone. But when he finds an overturned boat and a nearly drowned woman in the rough water, his life will get infinitely more complicated and dangerous. Together, he and Carla must outwit the professional killers sent to recover the deadly memento that threatens both McKint's political career and her life. *Lives of the Companions*

Maulana Yusuf Kandhelawi, 2023-12-29 In a time when we are short on role models and often forced to look beyond the Muslim community for inspiration and heroes, we cannot forget the exemplary lives of the Sahaba. This special group was hand-picked by Allah and raised by the Prophet ﷺ to imbue the message and carry it on to their successors. The stories of their extraordinary lives have been capsuled in this first part of a three-part collection which touches on every aspect of their inspiring lives, reveals their humanness, and how

they dreamed and breathed like us The one outstanding difference was that their hearts beat with the love of Allah and His Prophet sa which empowered them to overcome every struggle and live free of idolizing any culture nation or ideology Like the Prophet sa said If one of you gives equal to Mount Uhud in charity it would not equal to one mudd or even half a mudd they gave in charity Bukhari In essence they lived of by and for Allah only This modern translation of the first volume of Hayat al Sahaba is the first of its kind on the market in reflowable eBook format with a comprehensive commentary that provides relevance and extracts valuable lessons for our times The volume begins with a detailed description of the Prophet s physical characteristics how the work of da wah started and how the Sahaba carried it out in their era The Hayat al Sahaba series has inspired millions to understand Islam beyond concept theory and interpretations It immerses us into the reality of living Islam past present and future and that we can all be shaded by the mercy of Allah despite our differences like the Sahaba who all achieved the pleasure of Allah despite their many differences Translator Shaykh Asim Ahmad has many years of experience in translating classical works from Urdu Arabic into English His translations preserve the originality of a work while keeping the natural flow that allows the reader to enjoy the translation as if they were reading the original He is also the author of the bestselling Haj and Umra The Epic Journey

**She Found It in the Clouds** Sharon M. Jones, 2008-12 Take a journey Seen through the eyes of a young girl who learns to overcome pain from the death of loved ones the heartache of betrayal and abuse and the isolation of hidden shame and torment She Found It in the Clouds is an incredible story that gives a real life testimony of the power of God to bring complete healing forgiveness restoration peace and love Witness the transformation as she grows from a timid girl who lacks self esteem into a wise yet humble woman who possesses a forgiving heart and quiet strength to help others that have traveled on similar paths in life She Found It In The Clouds will certainly minister to anyone who has suffered pain and loss demonstrating the healing power of the Lord while inspiring others to know that indeed all things are possible to them that believe Sharon M Jones is a Parenting Educator and International Board Certified Lactation Consultant who works with families dealing with abuse and emotional trauma Born in the Caribbean Islands yet raised in Great Britain the United States and Africa by Christian missionaries she is a third generation musician and vocalist who possesses a unique style of ministering She has traveled around the world sharing her story of rising above incredible obstacles through faith in Christ She and her loving husband of 22 years reside in California and have four children

web mar 30 2014 ccnew pixelidylist woo for example if you choose the first edge point  $x_1 y_1$  and you compute  $\text{bwdistgeodesic}(bw, y_1, x_1, \text{cityblock})$  you will get a distance matrix whose values will be in the range 0 number of connected components 1 at the location  $x_1 y_1$  of your first point the distance matrix value will be 0 those of the next

**removed find strongly or weakly connected components in** - Jul 08 2022

web a dfs based algorithm computes the connected components time complexity is  $O(n + e)$  where  $n$  and  $e$  are number of nodes and edges respectively `scgraphconncomp(g, weak, weakvalue)` indicates whether to find weakly connected components or strongly connected components

implementing a connected component labeling algorithm from - Apr 17 2023

web mar 29 2020 what is connected component labeling visualization of an example code in matlab what is connected component labeling this is a computer vision algorithm to detect and count the number of connected regions also called blobs in a binary image often this is done after a segmentation algorithm

**connected component labelling through matlab github** - Jun 07 2022

web may 16 2019 this is a matlab function that utilises the image processing toolbox to convert any image to its edge image using canny algorithm and then label connected components in it the whole labelling algorithm is in a function that you can apply to any image the edge image goes through the labelling algorithm and final image is displayed

**connected component labeling file exchange matlab** - Mar 16 2023

web feb 10 2014 this function is partly based on the two pass algorithm described here en wikipedia org wiki connected component labeling i did not make use of the disjoint data set structure at least that i am aware of to connect the linked labels
