1970s almost none of these early plays could be located outside of a library The Roots of African American Drama fills this gap Five of the thirteen scripts included here have never been in print and only three others are presently available anywhere The plays represent a variety of styles allegory naturalism realism melodrama musical comedy and opera Four are full length eight are one acts and one is a skit Their subjects include slavery share cropping World War I vaudeville religion and legend and mythology In making their selections the editors used a variety of criteria to insure each play is dramatically sound and historically important They also searched for those scripts that were unjustly consigned to obscurity Each selection begins with headnotes that place it in its historical and cultural context Biographic information and a bibliography of other plays follow each script providing readers with added sources for study
