Somewhat Normal:

ARS. ,1967 Emotional Expression G. Collier,Gary James Collier,2014-01-14 First published in 1985 The purpose of this book is to draw together research on one aspect of verbal and nonverbal communication emotional expression The focus is on verbal and nonverbal behaviors associated with emotions A distinction is made between expressive behaviors that occur spontaneously during emotions often without a person s awareness or control and more deliberate forms of communication where the person manipulates verbal and nonverbal cues in order to create an impression The difference between expression and communication is introduced in Chapter 1 and developed throughout the book Industrial Employment Information Bulletin ,1931 **Reasons, Justification, and Defeat** Jessica Brown,Mona Simion,2021-04-16 Traditionally the notion of defeat has been central to epistemology practical reasoning and ethics Within epistemology it is standardly assumed that a subject who knows that p or justifiably believes that p can lose this knowledge or justified belief by acquiring a so called defeater whether that is evidence that not p evidence that the process that produced her belief is unreliable or evidence that she has likely misevaluated her own evidence Within ethics and practical reasoning it is widely accepted that a subject may initially have a reason to do something although this reason is later defeated by her acquisition of further information However the traditional conception of defeat has recently come under attack Some have argued that the notion of defeat is problematically motivated others that defeat is hard to accommodate within externalist or naturalistic accounts of knowledge or justification and still others that the intuitions that support defeat can be explained in other ways This volume presents new work re examining the very notion of defeat and its place in epistemology and in normativity theory at large
