copied to the young duke of berry whose bedroom was redecorated each year at Easter going from red to green the color of spring The authors consider children not only within the context the family life but within the supporting structures of the society in school in business in the monastery in extened or foster families They further demonstrate that despite often difficult living conditions the great majority of children were surrounded with affection     **Spiers and Surenne's French and English Pronouncing Dictionary** Alexander Spiers,1884     *House documents* ,1889
