Song Of Desire:

Desire by Gender and Genre in Trouvère Song Helen Dell,2008 Unspoken desire in trouv re song This study brings the songs of the trouv res to an encounter with Lacanian psychoanalytic theories of signification sexual difference and unconscious desire In trouv re song desire functions as a means of generic and genderic differentiation The trouv res distinguished between sexual need or lust and desire the latter usually confined to the masculine voice in high style Less exalted persons in whose company women were already implicitly included appear as incapable of desire in the fin amors register Critics have treated the issue of desire as represented in the courtly chanson but because criticism has followed the trouv res distinction between desire and need discussion of desire has been limited to songs in the courtly register rather than across the system of genres Desire in Lacan s sense that is unconscious desire is present in all genres and voices and this book unearths the unspoken desires of trouv re song by an attention to the characteristic means by which subjects subvert their demands in different genres HELEN DELL is a research fellowin English Literary Studies in the School of Culture and Communication University of Melbourne

The Generation of Meaning in Liturgical Songs Willem Marie Speelman,1995 This book is about the meaning of liturgical songs Everybody who sings liturgical songs knows what a liturgical song is and also what it eans But when we start to talk about them things become confused We know too much and there are too many languages in which we can express what we think their meaning is And what is worse other people seem not to understand what we say and immediately reply that we may know a lot but not what they know Then the discussion turns into a quarrel amongst people who know too much and connot communicate what they know A wise person may enter into the quarrel and say that communication about liturgical songs can only succeed when we sing together Then we will sing together confused and angry because we now also know that the other people may sing very well but do not understand what they are doing This is what has been happening for decades in the Dutch churches Perhaps we should be silent and start to look and listen very carefully to liturgical songs while developing a language in which the songs themselves can speak communicating what they have to say The looking and listening will take much time and energy there are no more easy answers And the language will be so difficult that we are forced to be silent waiting and hoping for a word to come Willem Marie Speelman 1960 is a musicologist theologian and semiotician In the present work he develops a very strict scientific method which can help to understand how liturgical songs work that is in what manner they generate meaning

Poetic Ethics in Proverbs Anne W. Stewart, 2015-12-01 The Book of Proverbs frequent use of binary oppositions righteous and wicked wise and foolish has led many to assume that its vision of the moral world is relatively simplistic This study demonstrates that Proverbs in fact presents a remarkably sophisticated response to ethical questions of profound concern to the Israelite sages who crafted the book what motivates human beings How do they learn How does the power of desire shape human characters Anne W Stewart analyzes Proverbs multifaceted collection of images and metaphors to reveal their complex understanding of the development of the moral self which suggests that character formation requires educating all of the senses and not simply the cognitive faculties One of few works to make explicit connections between the poetic form of Proverbs and its pedagogical function Poetic Ethics in Proverbs will appeal to all those interested in literary approaches to the Bible
