Sur Jacques Ellul:

Jacques Ellul and the Technological Society in the 21st Century Helena M. Jerónimo, José Luís García, Carl Mitcham, 2013-07-08 This volume rethinks the work of Jacques Ellul 1912 1994 on the centenary of his birth by presenting an overview of the current debates based on Ellul's insights As one of the most significant twentieth century thinkers about technology Ellul was among the first thinkers to realize the importance of topics such as globalization terrorism communication technologies and ecology and study them from a technological perspective The book is divided into three sections The first discusses Ellul's diagnosis of modern society and addresses the reception of his work on the technological society the notion of efficiency the process of symbolization de symbolization and ecology The second analyzes communicational and cultural problems as well as threats and trends in early twenty first century societies Many of the issues Ellul saw as crucial such as energy propaganda applied life sciences and communication continue to be so In fact they have grown exponentially on a global scale producing new forms of risk Essays in the final section examine the duality of reason and revelation They pursue an understanding of Ellul in terms of the depth of experience and the traditions of human knowledge which is to say on the one hand the experience of the human being as contained in the rationalist sociological and philosophical traditions On the other hand there are the transcendent roots of human existence as well as revealed knowledge in the mystical and religious traditions The meeting of these two traditions enables us to look at Ellul's work as a whole but above all it opens up a space for examining religious life in the technological society **Questioning**

Technology with Jacques Ellul David W. Gill, Lisa Richmond, 2025-10-07 Twenty first century technology is an ever expanding powerful force in virtually every aspect of human life and every corner of the globe So much of modern technology has resulted in positive improvements in communication work health and other domains Technology's promises and possibilities for the future are often glowing But it is one thing for technology to function as a tool serving human purpose and flourishing and quite another for it to be granted the position of unquestioned master All technologies deserve to be questioned What are their costs trade offs and potential or real negative impact And how do we create limits and controls for technological invasion when these would be wise and necessary Questioning Technology with Jacques Ellul addresses these questions in both the big picture and in their relevance to specific arenas such as art politics work and religion with voices from not just the academy but also the workplace and society **Hope in the Thought of Jacques Ellul** Lawrence J.

Terlizzese, 2005-10-30 Hope expresses more than an area of concentration in Ellul's thought it is the central idea that binds his disparate elements together Ellul believed that at this moment of history the world since 1945 hope must preoccupy our thinking and lives To understand hope we must first comprehend its absence This entails discerning what causes the absence of hope namely the world's embrace of technique and the abandonment of God Ellul also rejected these as a positive affirmation He wanted to make a firm distinction between reality and truth He affirmed modern abandonment as a realistic

fact as an accurate analysis of the present condition not as an affirmation of the truth. Hope is truth in Jesus Christ but truth must be asserted against these harsh facts. He used facts to incite hope in believers to shake their complacency and to realize their actual condition in the world. The idea of hope in the thought of Jacques Ellul can only be properly understood in light of dialectic struggle between negatives which amount to factual representations of the modern world and positives through which hope exerts itself in the face of these facts. From this tension will issue personal resolve. Technique has brought the world to great collective heights and achievements but this has come at the expense of personal ends and meaning. Ellul attempted to bridge this gap by asserting individual meaning against the aggregated progress of technique without destroying the gains made by collective advance. This represents the central dilemma in Ellul's thought: how does one maintain meaning and personal aims in a world founded on corporate necessity from the Introduction.

Jacques Ellul on Politics, Technology, and Christianity Jacques Ellul, Patrick Troude-Chastenet, 2005-06-16. The Final Interviews Before Jacques Ellul Died. Jacques Ellul on Politics, Technology, and Christianity is the best and most satisfying set of interviews ever carried out with Jacques Ellul and we are most fortunate to have this rich legacy of thought now available to a broader audience. Patrick Chastenet knew Ellul personally as well as intellectually. His questions display a rare balance of respect, boldness, and insight that perhaps no one else could have achieved. Chastenet elicits Ellul's thoughts in Ellul's voice and refuses to edit or reorganize the text in any way that would diminish the realism and authenticity of the conversation. Chastenet truly takes the reader into Ellul's salon for a rare and wonderful experience. David W. Gill, President of the International Jacques Ellul Society. Patrick Chastenet's interviews are a must read for anyone interested in Jacques Ellul or in issues pertaining to modern France. This book is full of important insights into an impressive range of issues from technology and ecology to theology. Professor Joyce Hanks, University of Scranton. Jacques Ellul (1912-1994) was Professor of the History of Institutions at the University of Bordeaux, France, from the end of World War II until his retirement in 1980. He is best known for his brilliant path-finding analysis of our world in *The Technological Society* (original French edition 1954) and many other writings such as *The Technological System*, *The Technological Bluff*, and *The Political Illusion*. Ellul was also a powerful lay voice for a renewed and reformed Christian theology and ethics. Many of his Christian writings such as *Presence of the Kingdom*, *Living Faith*, and *Hope in Time of Abandonment* continue to challenge and inspire. For more information, visit www.ellul.org, the web site of the International Jacques Ellul Society. Patrick Troude-Chastenet is Professor of Political Science at the University of Poitiers. He studied with Professor Ellul at the Institute for Political Studies, University of Bordeaux (1974-76). He is author of an introduction to Ellul's thought, *Lire Ellul: Introduction à l'œuvre socio-politique de Jacques Ellul* (1992), and editor of two anthologies on Ellul's thought: *Sur Jacques Ellul: Un penseur de notre temps* (1994) and a forthcoming collection from the international colloquium at Poitiers (October 2004) entitled *Jacques Ellul: Libre examen d'une pensée sans frontières*. Chastenet is the founding president of L'Association Internationale Jacques Ellul (www.jacquesellul.org) and founding editor.

of the annual Cahiers Jacques Ellul The interviews in the present volume were conducted over a fourteen year period 1981 1994 and were originally published as *Entretiens avec Jacques Ellul* 1994 **Jacques Ellul** Joyce Main Hanks, 1984
