fieldwork these provocative essays capture the challenges and intricacies of that anthropological rite of passage The collections authors frankly portray the mistakes they made in the field their struggle to analyze the events unfolding before their eyes the psychological and emotional frustration seemingly endemic to doing ethnography and the ethical complexities of researching living people The authors present these essays not as models of ideal fieldwork or as a series of lessons about how to overcome potential hurdles one faces in the field but rather as a window into the complexities of being an ethnographer in the contemporary world Against a backdrop of subject populations increasingly informed about global relations of power and more specifically informed about the topography of American imperialism these humanistic essays vividly reflect recent shifts in both the focus and methods of anthropological research as well as the dilemmas underlying the construction of anthropological knowledge They are meant to spark discussion and debate While tailored to an audience relatively new to ethnographic fieldwork and intended as a teaching tool this collection should appeal to anthropologists and ethnographers at all points in their career **Global Migration** Diego Acosta Arcarazo,Anja Wiesbrock,2015-05-05 This three volume work exposes myths and debunks misinformation about global migration an issue generating emotional debate from the highest levels of power to kitchen tables across the United States Europe and worldwide Many don t realize that migration has been a central element of global social change since the 15th century Unfortunately misconceptions about the 3 percent of world citizens who do choose to migrate can be destructive In 2008 riots broke out in South Africa over workers from neighboring countries Today s rising tensions along the U S Mexican border are inciting political social and economic upheaval In the EU political fortunes rise and fall on positions regarding the future of multiculturalism in Europe Relying on fact not rhetoric this three volume book seeks to inform readers allay fears and advance solutions While other reference works tend to limit their scope to one country or one dimension of this hot button issue this book looks at the topic through a wide and interdisciplinary lens Truly global in scope this collection explores issues on all five continents discussing examples from more than 50 countries through analysis by 40 top scholars across 8 disciplines By exploring the past present and future of measures that have been implemented in an attempt to deal with migration ranging from regularization procedures to criminalization readers will be able to understand this worldwide phenomenon Both the expert and the general reader will find a wealth of information free of the unsustainable claims and polarized opinions usually presented in the media To view the introductory chapter of this book visit http papers ssrn com sol3 papers cfm abstract_id 2604184 **The Routledge Companion to Migration, Communication, and Politics** Stephen Croucher,Joao Caetano,Elsa Campbell,2018-12-07 The Routledge Companion to Migration Communication and Politics brings together academics from numerous disciplines to show the legal political communicative theoretical methodological and media implications of migration The collection makes the compelling case that migration does not occur in a vacuum rather it is driven by and reacts to various factors including the political economic and cultural worlds in which individuals live The 25 chapters reveal the complex nature of migration
