**Pompey, Cato, and the Governance of the Roman Empire** Kit Morrell,2017-03-09 Provincial governance under the Roman republic has long been notorious for its corrupt officials and greedy tax farmers though this is far from being the whole story This book challenges the traditional picture contending that leading late republican citizens were more concerned about the problems of their empire than is generally recognized and took effective steps to address them Attempts to improve provincial governance over the period 70 50 BC are examined in depth with a particular focus on the contributions of Gnaeus Pompeius Magnus Pompey and the younger Marcus Porcius Cato These efforts ranged well beyond the sanctions of the extortion law encompassing show trials and model governors and drawing on principles of moral philosophy In 52 50 BC they culminated in a coordinated reform programme which combined far sighted administrative change with a concerted attempt to transform the ethos of provincial governance the union of what Cicero called Cato s policy of ethical governance with Pompey s *lex de provinciis* a law which transformed the very nature of provincial command Though more familiar as political opponents Pompey and Cato were united in their interest in good governance and were capable of working alongside each other to effect positive change This book demonstrates that it was their eventual

collaboration in the late 50s BC that produced the republic's most significant programme of provincial reform. In the process it offers a new perspective on these two key figures as well as an enriched understanding of provincial governance in the late Roman republic. **Government and Governance of European Empires, 1450-1800** A.
