Archaeology on the Great Plains W. Raymond Wood, 1998-07-29

Archaeological Thinking Charles E. Orser Jr., 2023-07-18 How do archaeologists think? How do archaeologists take the scattered and fragmentary remains collected from past settlements and create meaningful, reasonable interpretations of past human history? In the second edition of *Archaeological Thinking*, Charles E. Orser Jr. provides answers to these questions and more by explaining in non-technical language the most basic elements of critical thinking in archaeology. This book explores and explains such topics as the use of logic in framing arguments, the curious issue of fact selection, the use of analogies, the role of archaeology in contemporary society and among present-day communities, approaches to understanding the past and the dangers of deceitful archaeological thinking. Examples taken from the world of ancient aliens, mythical sunken cities and mysterious creatures help readers learn how to separate reality from
