## **Southern African Agribusiness Gaining Through Regional Collaboration:**

**Southern African Agribusiness** Steven Jaffee, 1999-01-01 Recent economic reforms and political changes within Southern Africa have opened up new opportunities for intra regional agricultural trade and other forms of agribusiness collaboration This collaboration is vital given the relatively small size of individual country markets and the fact that no single country in the region has the resources and capacity to mount a sustained drive to achieve international market prominence and competitiveness This study examines private sector perceptions regarding the agribusiness investment environment and the scope for regional collaboration in Southern Africa It then presents a series of case studies highlighting experiences in such collaboration as well as additional opportunities and constraints The case studies illustrate the varied forms that this intra regional collaboration has or could take including the transfer of technologies and management systems joint logistics and international marketing cross border investment product research and development human resource development raw material sourcing and regional trade in inputs and consumer products Both the agribusiness company survey and the industry case studies include recommendations for policymakers agribusiness managers representatives and agricultural and private sector development practitioners *World Agricultural Economics and Rural Sociology Abstracts*, 1999 **Issues**

**and Challenges in Rural Development** Siegfried Bauer, Lila Bahadur Karki, 2007 **World Bank Group Publications ...**

**Catalog** World Bank Group, 1999 Catalog of Publications World Bank Group, 2000 Complete current catalog of all print and online journals and monographs Social Assessment and Agricultural Reform in Central Asia and Turkey Ayse Kudat, Stan Peabody, Çağlar Keyder, 2000 The social assessment process is relatively new in the World Bank Since its use is particularly relevant to countries in transition politically socially economically and ethnically where much is still unknown in 1997 the World Bank published a book of case studies of the use of social assessment in general in the former Soviet Union This second volume focuses on the social assessment process in the rural sector and includes Central Asian countries and Turkey which were not included in the first volume This volume has several objectives first to disseminate the Bank's experience with social assessment for the use of development practitioners around the world second to initiate a dialogue about how the social assessment process can be improved in the future and third to demonstrate the usefulness of social assessment in an area of the world where dealing with rapid change and an uncertain knowledge basis is common

*Financial Markets, Credit Constraints, and Investment in Rural Romania* Rodrigo Chaves, World Bank, 2001 The report assesses the performance of financial markets in rural areas of Romania based on three rural household rural enterprise and financial intermediary surveys carried out in 1998 and other official data covering 1997 The study finds that rural financial markets perform rather poorly in three key dimensions the degree of access to financial services by rural economic agents enterprises and households is very limited this limited access hinders the ability of these agents to take advantage of the investment opportunities available in rural areas and these markets failed to allocate flows of credit to those agents with the

most profitable investment opportunities This poor performance is caused by an unfortunate combination of short term circumstances structural factors and government policies and interventions In particular the degree of access to credit services by rural agents is very low because several factors have combined to weaken both the supply of and demand for rural credit The report suggests a detailed government strategy to correct the observed shortcomings of rural financial markets and identifies new challenges likely to appear Moreover the Government could assist in increasing the availability of credit by improving policies in financial markets legal and regulatory framework and the ability of the financial sector to provide retail financial services

**Dismantling Russia's Nonpayments System** Brian Pinto,2000 The study analyzes the complex inter linked non payments system in Russia to include its origins evolution and factors contributing to its development To the contrary it identifies a minimum set of economic reforms needed to dismantle this system suggesting the need for a political decision to stop subsidies to enterprises explicit or implicit thereby ensuring hard budget constraints Corrective policies will need to address a continued reform to attain fiscal control a tax reform to enable transparent cash based taxation and a coordination of inflation targets to strictly avoid budgetary arrears and impose instead hard budget constraints on enterprises In addition efficient pricing taxation and regulation of the energy monopolies should be enforced supplemented with a policy enabling disconnection of non payers coupled with an assessment of the probable social consequences of hard budgets

**Agricultural Export Diversification, Food Security and Living Conditions of Farmers in Southern Ghana** Victor Afari-Sefa,2006 *Financing, Efficiency, and Equity in Albanian Education* Geremia Palomba,Milan Vodopivec,2001 This report compiles a rich set of previously unavailable data to define where the education sector in Albania has evolved what key challenges remain and the priority areas for action by the Albanian government The report finds that four broad tasks must be tackled to improve education The country must 1 increase enrollment rates with the goal of achieving truly universal education in primary and lower secondary schools and reversing the actual trend of decreasing secondary enrollment 2 improve the quality of education which requires developing human resource policies such as teacher development programs and improved salaries that will attract good teachers and give them incentives to perform well in classrooms and providing an adequate physical school environment which means among other things renovating and adequately maintaining school buildings 3 increase public spending on education which requires developing clear priorities and reducing relative spending on tertiary education providing constant and reliable funding to support the identified policy priorities and increasing spending on non wage expenditures and investments and 4 make better use of teachers and schoolsby decentralizing decisionmaking and responsibilities that are more reasonably delegated to the local level

Zambia-Malawi-Mozambique Growth Triangle ,2003 Judicial Challenges in the New Millennium Andrés Rigo Sureda,Waleed Haider Malik,1999 In search of an optimal judicial role in social and economic development many initiatives and meetings on judicial reform have been undertaken in the past few years in Latin America and around the world One such

meeting assembled more than 20 chief justices and presidents of supreme courts and over 200 members of Latin American judiciaries with an eye toward developing judicial reform strategies for the next millennium The meeting focused on judicial organization citizen participation judicial discipline judicial ethics and corruption human rights citizen security and drug problems The summit also included a mock corruption trial The papers collected in this volume were presented at the proceedings of the Second Ibero American Summit of Supreme Courts and Tribunals of Justice held on March 24 26 1999 in Caracas Venezuela This regionwide conference was intended to promote the flow of ideas and perspectives among chief justices judges and practitioners in the judicial sector in Latin America the Caribbean Spain and Portugal Several observer country justices from outside the region including Egypt France Guyana Pakistan Romania and the West Indies also participated Representatives of nongovernmental organizations and several other local and international observers also attended the summit
