Southern West Virginia Coal Country:

Southern West Virginia Coal Country James E. Casto, 2004 Coal was mined in Southern West Virginia even before the state's birth in 1863 but was mostly consumed within a few miles of where it was dug. When the railroads arrived on the scene they not only provided a means of getting that coal to market they also brought in trainloads of workers to the sparsely populated region. With the mines generally located in remote out of the way spots operators were forced to build housing for those workers and their families as well as company stores, schools and churches everything needed in a small community. Overnight the nation's demand for coal turned sleepy little places in Southern West Virginia into boomtowns and helped cities such as Charleston and Huntington grow and prosper as gateways to and from the coalfields. **Colliery Guardian, and Journal of the Coal and Iron Trades**, 1893 **The Railway World**, 1879 Sawards' Coal Freight Circular Frederick Edward Saward, 1873 **The Black Diamond**, 1900 **Annual Report of the Geological Survey of Pennsylvania** Pennsylvania. Geological Survey, 1887 **Railroad Record and Journal of Commerce, Banking, Manufactures and Statistics**, 1871 **Coal Mining Review and Industrial Index**, 1926 The Encyclopaedia Britannica Thomas Spencer Baynes, 1885 **Railway World**, 1879 *Allegheny County, Pennsylvania; Illustrated* Consolidated Illustrating Company, 1896 *Engineering and Mining Journal*, 1874 **West Virginia Jewry: Origins and History, 1850-1958** Abraham Isaac Shinedling, 1963 **The Encyclopaedia Britannica**, 1888 *Harris West Virginia Manufacturing Directory*, 1995 **The Smokeless Coal Fields of West Virginia** William Purviance Tams (Jr.), 2001 The Smokeless Coal Fields of West Virginia A Brief History first appeared in 1963 a little book by a man with no training as either a writer or a historian. Since then this volume has become an essential sourcebook consulted and quoted in nearly every study of coal field history. The surprising impact and durability of the book are due to both the information in it and the personality behind it. Through the first half of the twentieth century William Purviance Tams lived coal. Rising from a young coal engineer to a senior coal baron Tams stood at the center of Southern West Virginia industrialization. When he sold his company in 1955 Tams was the last of the old owner operators men with no personal or financial interest outside of coal. Tams wrote a book which could only have come from an ultimate insider. The everyday work of mining coal is here laying track, blasting and loading the coal. So is the everyday business of coal from sinking shafts and ventilating the work area to administering a town and keeping the workers happy. Tams gives the financial details of the volatile business and offers capsule biographies of the other major developers of the Southern West Virginia coal fields. It was a passion for Tams. He never married and tended his business and his town with paternal care. After retirement this industrial baron spent his final decades in a modest bungalow in his little coal camp community watching the town he had built fade back into the mountains. It is W. P. Tams's passion and attitude as much as his place at the center of history which make *The Smokeless Coal Fields of West Virginia* worth reading nearly 40 years after its first publication. Tams's 1963 account of his career *The Smokeless Coal*

Fields of West Virginia offers a unique perspective on the business and the life of coal mining The book is especially valuable for its account of the daily life and work of the miners engineers and families in the mines and in the mining towns Our reprint of this fascinating and important book combines Tams s original work with a new introduction by Ronald D Eller author of *Miners Millhands Mountaineers* **Traffic World and Traffic Bulletin** ,1927 *Virginiana in the Printed Book Collections of the Virginia State Library: Subjects* Virginia State Library,1975 *The Chesapeake & Ohio Historical Magazine* ,2006 Mining and Engineering World ,1915
