Let My People Breathe! Unmasking the Mask Controversy With Science and Scripture Dr. Jerry Scheidbach,Sarah Green, PA-C,2023-07-10 The title Let My People Breathe is adapted from the Exodus when God sent Moses to Pharoah with His demand Let my people go When you read this book you will understand the urgency that is reflected in the title Let My People Breathe examines science and Scripture to answer two questions regarding mask mandates 1 Do masks work what does the science say and 2 Are mask mandates moral do they violate personal liberties what do the Scriptures say Dr Scheidbach is known among his peers and his radio podcast followers of the Brain Massage show as a fastidious researcher of high integrity In preparation for writing this book he examined 964 scientific and technical studies searching for the answer to question No 1 do masks work He discovered that while many late studies purport to support public masking to control the spread not one provides scientific proof that surgical or cloth masks offer adequate protection against infection by something so small as a virus Furthermore he discovered our natural filtration provides far superior protection than the masks recommended by CDC WHO and Fauci And disturbingly he discovered masks can interfere with natural filtration and actually facilitate infection He documents his research thoroughly in his book and provides his readers access to every article he examined along with his extensive research notes over 800 pages in separate downloadable files Free to all who purchase Let My People Breathe On the second question what does the Bible say about mask mandates Dr Scheidbach brings to his readers over 50 years of extensive biblical studies including formal training culminating in an earned Doctorate in Theological Studies graduating summa cum laude He addresses questions about a Christian s responsibility to obey governments with biblical integrity and refreshing candor He shows what the Bible actually says about the purpose and limits of government His explanation of Romans 13 is worth the price of this book In this section of Let My People Breathe Dr Scheidbach reveals that the mask mandate issue has far reaching political and spiritual implications Let My People Breathe could be one of the most important books you read this year      *Achieving Sustainable Business through AI, Technology Education and Computer Science* Allam Hamdan,2024-11-08 This book aims to explore the intersection of AI technology education and computer science with sustainable business practices It delves into the application of cutting edge technologies such as artificial intelligence machine learning and blockchain in various business domains including healthcare education government services and digital transformation      *Research Method in the Postmodern* James Scheurich,2014-01-02 In recent years research in the social sciences has been dominated by the debate on the merits of qualitative method versus quantitative methodology Until recently the debate appeared to have been won by those promoting the qualitative approach but then postmodern theory appeared on the scene challenging all our preconceptions about

research method This book goes one step further than those working at the philosophical level showing the implications of postmodernism for practice **English Mechanic and World of Science** ,1882 **English Mechanic and Mirror of Science and Art** ,1893 Academy; a Weekly Review of Literature, Learning, Science and Art ,1872 The Poetical gazette the official organ of the Poetry society and a review of poetical affairs nos 4 7 issued as supplements to the Academy v 79 Oct 15 Nov 5 Dec 3 and 31 1910 **Science Progress** ,1894 *The New Science Journalists* Ted Anton,1995 In The New Science Journalists Editors Ted Anton and Rick McCourt have gathered the best of the new science writing into one illuminating volume What is new about the work of these journalists lies in the scale pace and uses of their writing These writers bridge the gap between members of the science community and a society hungry for news about their work acting not only as reporters and commentators but also as investigators researchers detectives and storytellers The editors have showcased three very different kinds of writers The first group explores the complexities of our universe with childlike wonder and includes Diane Ackerman John Seabrook and Elisabeth Rosenthal The second group relentless investigators who expose the inside stories of scientific research includes Deborah Blum Robert Capers Eric Lipton and John Crewdson And the third group of writers who dig through data uncovering trends that researchers themselves miss features Timothy Ferris E O Wilson James Gleick and many more These writers are helping to broaden the very boundaries of science by making complex topics such as chemistry physics biotechnology and ecology accessible and entertaining to readers of every kind Combining superb prose and compelling subjects The New Science Journalists examines some of the most fascinating issues of our times *Science of Man* ,1900 The Saturday Review of Politics, Literature, Science and Art ,1877 Science Annual, 1987 ,1986 **Egypt 2015: Perspectives of Research** Mladen Tomorad,Joanna Popielska-Grzybowska,2017-04-30 This volume presents proceedings from the Seventh European Conference of Egyptologists Zagreb Croatia 2015 The Saturday Review of Politics, Literature, Science and Art ,1898 *Research in Area of Materials Science* Jian Xin Zou,2015-04-07 Selected peer reviewed papers from the Asia Pacific Materials Science and Information Technology Conference APMSIT 2014 December 13 14 2014 Shanghai China **Journal of the Society for Psychical Research** Society for Psychical Research (Great Britain),1890 **Scientific American** ,1900 **The Christian Science Journal** ,1895 the scientific review and scientific and literary review ,1881
