The Master Mind Theron Dumont, 2013-07-15 Mind Mastery vs Mind Slavery But you may say what do you mean by The Master Mind What is the difference between a Master Mind and any other form of Mind Simply this good readers that the Master Mind is consciously deliberately and voluntarily built up cultivated developed and used whereas the ordinary mind is usually unconsciously built up cultivated and developed without voluntary effort on its own part but solely by the force and power of impressions from the outside world and is usually employed and used with little or no conscious direction by its own will In short the ordinary mind is a mere creature of circumstances driven hither and thither by the winds of outside forces and lacking the guidance of the hand on the wheel and being without the compass of knowledge while the Master Mind proceeds in the true course mapped out by Intelligence and determined by will with sails set so as to catch the best breeze from the outside world and steered by the master hand at the wheel under the direction of the compass of intelligence The ordinary mind is like a dumb driven animal while the Master Mind is like the strong willed intelligent masterful Man The average man is a very slave to his thoughts and feelings A stream of thought and feeling flows through him moving him hither and thither with little or no voluntary choice on his own part Even those men who have attained a certain degree of mental mastery do but little more than to feebly steer their mental bark by the rudder of a wobbling will they do not realize that Mastery is possible to them Even a well known writer has said We do not voluntarily create our thinking It takes place in us We are more or less passive recipients We cannot change the nature of a thought but we can as it were guide the ship by a moving of the helm It would be truer to say that we can deliberately and voluntarily select and choose the particular wind which is to force our mental boat forward or changing the figure to choose and select the particular stream of thought and feeling which is to be allowed to flow through our mind There are three general conditions of human mentality viz 1 Mental Slavery in which the mind is the slave and servant of outside forces and influences 2 Partial Freedom in which the mind is largely controlled by outside influences while at the same time a limited amount of voluntary control and direction has been acquired and 3 Mental Mastery in which the mental faculties and emotional organism have been brought under the control of the will and judgment and the individual is a master of and not a slave to environment and circumstances The great masses of persons are in the first or the above named classes a comparatively small number have passed into the second class while a still smaller number have passed into the third class and have become the Master Minds of their time and place

The Master Mind; Or the Key to Mental Power,

Development and Efficiency Theron Q. Dumont, 2013-09 This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book without typos from the publisher. Not indexed. Not illustrated. 1913 edition. Excerpt from start to finish. The importance of this fact can be correctly estimated only when one realizes the all important part played by Thought in the life and welfare of the individual. As a man thinketh so is he. We are the result of what we have thought. The Master Mind thinks what it wills to think, not what others will it to think, or what Chance determines it shall think. Thus is the Master Mind the Master of Itself. In the next chapter we shall take up our consideration of the processes of Thought beginning at this point where we are considering the nature of the Concept and the Process of Conception.

CHAPTER XIV MASTERY OF REASONING We have seen that a Concept expresses our general idea of a class of things. And as we shall presently see, our idea of a particular object is frequently derived by Deductive Reasoning from our class concepts; it follows that our knowledge concerning any particular thing is largely obtained through our concept of the class to which the thing belongs, or rather from the classes to which it belongs. For every concrete thing belongs to a number of classes. This being seen, it is perceived that it is of the highest importance that we form accurate and full concepts regarding the classes of things which are concerned with our chosen field of knowledge. We have seen that the concept of a class of concrete objects must of necessity include all the qualities common to that class. But it does not and can not also include any of the qualities which pertain only to certain individuals or groups within the general class. For example, the concept dog must include all the qualities or characteristics common to all dogs. But it cannot include any of the qualities or characteristics which are

The Master Mind Theron Q. Dumont, 2017-10-09 Mind Mastery vs Mind Slavery But you may say what do you mean by The Master Mind? What is the difference between a Master Mind and any other form of Mind? Simply this: good readers, that the Master Mind is consciously, deliberately, and voluntarily built up, cultivated, developed, and used; whereas the ordinary mind is usually unconsciously built up, cultivated, and developed without voluntary effort on its own part, but solely by the force and power of impressions from the outside world, and is usually employed and used with little or no conscious direction by its own will. In short, the ordinary mind is a mere creature of circumstances, driven hither and thither by the winds of outside forces, and lacking the guidance of the hand on the wheel, and being without the compass of knowledge, while the Master Mind proceeds in the true course, mapped out by Intelligence, and determined by will, with sails set so as to catch the best breeze from the outside world, and steered by the master hand at the wheel, under the direction of the compass of intelligence. The ordinary mind is like a dumb driven animal, while the Master Mind is like the strong-willed, intelligent, masterful man. The average man is a very slave to his thoughts and feelings. A stream of thought and feeling flows through him, moving him hither and thither with little or no voluntary choice on his own part. Even those men who have attained a certain degree of mental mastery do but little more than to feebly steer their mental bark by the rudder of a wobbling will; they do not realize that Mastery is possible to them. Even a well-known writer has said: We do not voluntarily

create our thinking It takes place in us We are more or less passive recipients We cannot change the nature of a thought but we can as it were guide the ship by a moving of the helm It would be truer to say that we can deliberately and voluntarily select and choose the particular wind which is to force our mental boat forward or changing the figure to choose and select the particular stream of thought and feeling which is to be allowed to flow through our mind There are three general conditions of human mentality viz 1 Mental Slavery in which the mind is the slave and servant of outside forces and influences 2 Partial Freedom in which the mind is largely controlled by outside influences while at the same time a limited amount of voluntary control and direction has been acquired and 3 Mental Mastery in which the mental faculties and emotional organism have been brought under the control of the will and judgment and the individual is a master of and not a slave to environment and circumstances The great masses of persons are in the first or the above named classes a comparatively small number have passed into the second class while a still smaller number have passed into the third class and have become the Master Minds of their time and place *The Master Mind* Theron Q.
