## **The Matrix Collectors Edition:**

**Limited Edition Prints** Felicity Moreau, AI, 2025-02-27 Limited Edition Prints offers a deep dive into the art market specifically focusing on the unique financial aspects of limited edition prints. This book unveils the complex factors that determine why some prints become valuable investments while others do not. It explores the art market dynamics and the importance of not only aesthetic appeal but also elements like artistic reputation and edition size in driving value. You'll discover how the book examines the history of printmaking and the role of social and economic factors in shaping demand. The book approaches this topic by first introducing the basics of limited edition prints and then diving into the factors that influence their value such as artistic reputation, condition, and market trends. It progresses by building a synthesized model for valuing limited edition prints, providing practical applications for collectors, investors, and artists. The argument is supported by auction records, sales data, and interviews. A key insight is that the appreciation of a print isn't solely based on artistic merit but on a blend of quantifiable and qualitative factors.

*The Matrix in Theory*, 2016-08-01 The Matrix trilogy continues to split opinions widely, polarising the downright dismissive and the wildly enthusiastic. Nevertheless, it has been fully embraced as a rich source of theoretical and cultural references. The contributions in this volume probe the effects the Matrix trilogy continues to provoke and evaluate how or to what extent they coincide with certain developments within critical and cultural theory. Is the enthusiastic philosophising and theorising spurred by the Matrix a sign of the desperate state theory is in in the sense of seeing how low theory or post theory has sunk? Or could the Matrix be one of the master texts for something like a renewal for theory as now being mainly concerned with new and changing relations between science, technology, posthumanist culture, art, politics, ethics, and the media? The present volume is unashamedly but not dogmatically theoretical even though there is not much agreement about what kind of theory is best suited to confront post theoretical times. But it is probably fair to say that there is agreement about one thing, namely that if theory appears to be like the Matrix today, it does so because the culture around it and which made it itself seems to be captured in some kind of Matrix. The only way out of this is through more and renewed refreshed theorising not less.

**Cinemas, Identities and Beyond** D. H. Fleming, Cheung Ruby, 2020-07-13 Cinemas Identities and Beyond examines different modes of representing and constructing identities in and through the medium of film, transcending the narrow confines of the local, national, regional, and challenging spatial and temporal boundaries. It gathers fifteen essays that explore different dimensions of identities in contexts ranging from domestic spheres, urban milieus, socio-political environments, diasporic film making, issues, anthropology, film festivals, and psychoanalysis to the examination of stardom in society. Engaging with cinematic representations, narrative conventions, film form, industry concerns, and other socio-cultural, economic, political factors relating to the production, distribution, exhibition, and consumption of film. Cinemas Identities and Beyond contributes to one of the most thought-provoking contemporary debates on cinemas and identities in film studies. Revisiting films such as *Farewell My Concubine*, *The Matrix*,
