Meannie and the Min Min Pamela Shrapnel, 2001 Managing and Processing Big Data in Cloud Computing Kannan, Rajkumar, 2016-01-07 Big data has presented a number of opportunities across industries With these opportunities come a number of challenges associated with handling analyzing and storing large data sets One solution to this challenge is cloud computing which supports a massive storage and computation facility in order to accommodate big data processing Managing and Processing Big Data in Cloud Computing explores the challenges of supporting big data processing and cloud based platforms as a proposed solution Emphasizing a number of crucial topics such as data analytics wireless networks mobile clouds and machine learning this publication meets the research needs of data analysts IT professionals researchers graduate students and educators in the areas of data science computer programming and IT development Fuzzy Image Processing and Applications with MATLAB Tamalika Chaira, Ajoy Kumar Ray, 2017-12-19 In contrast to classical image analysis methods that employ crisp mathematics fuzzy set techniques provide an elegant foundation and a set of rich methodologies for diverse image processing tasks However a solid understanding of fuzzy processing requires a firm grasp of essential principles and background knowledge Fuzzy Image Processing and Applications with MATLAB presents the integral science and essential mathematics behind this exciting and dynamic branch of image processing which is becoming increasingly important to applications in areas such as remote sensing medical imaging and video surveillance to name a few Many texts cover the use of crisp sets but this book stands apart by exploring the explosion of interest and significant growth in fuzzy set image processing The distinguished authors clearly lay out theoretical concepts and applications of fuzzy set theory and their impact on areas such as enhancement segmentation filtering edge detection content based image retrieval pattern recognition and clustering They describe all components of fuzzy detailing preprocessing threshold detection and match based segmentation Minimize Processing Errors Using Dynamic Fuzzy Set Theory This book serves as a primer on MATLAB and demonstrates how to implement it in fuzzy image processing methods It illustrates how the code can be used to improve calculations that help prevent or deal with imprecision whether it is in the grey level of the image geometry of an object definition of an object's edges or boundaries or in knowledge representation object recognition or image interpretation The text addresses these considerations by applying fuzzy set theory to image thresholding segmentation edge detection enhancement clustering color retrieval clustering in pattern recognition and other image processing operations Highlighting key ideas the authors present the experimental results of their own new fuzzy approaches and those suggested by different authors offering data and insights that will be useful to teachers scientists and engineers among others *Introduction to Grid Computing* Frederic Magoules, Jie Pan, Kiat-An Tan, Abhinit Kumar, 2009-03-27 A Thorough Overview of the Next Generation in Computing Poised to follow in the footsteps of the Internet grid computing is on the verge of becoming more robust and accessible to the public in the near future Focusing on this novel yet already powerful technology Introduction to

Grid Computing explores state of the art grid projects core grid **The Min-min** Mavis Thorpe Clark,2000 **Scientific Papers of the Bureau of Standards** ,1926 **High-Performance Computing on Complex Environments** Emmanuel Jeannot,Julius Zilinskas,2014-04-10 With recent changes in multicore and general purpose computing on graphics processing units the way parallel computers are used and programmed has drastically changed It is important to provide a comprehensive study on how to use such machines written by specialists of the domain The book provides recent research results in high performance computing on complex environments information on how to efficiently exploit heterogeneous and hierarchical architectures and distributed systems detailed studies on the impact of applying heterogeneous computing practices to real problems and applications varying from remote sensing to tomography The content spans topics such as Numerical Analysis for Heterogeneous and Multicore Systems Optimization of Communication for High Performance Heterogeneous and Hierarchical Platforms Efficient Exploitation of Heterogeneous Architectures Hybrid CPU GPU and Distributed Systems Energy Awareness in High Performance Computing and Applications of Heterogeneous High Performance Computing Covers cutting edge research in HPC on complex environments following an international collaboration of members of the ComplexHPC Explains how to efficiently exploit heterogeneous and hierarchical architectures and distributed systems Twenty three chapters and over 100 illustrations cover domains such as numerical analysis communication and storage applications GPUs and accelerators and energy efficiency **Australia's Haunted History** Trudy Toohill,2016-05-04 Australia s Haunted History is a collection of spine tingling blood curdling frightening and often mysterious Australian paranormal tales from throughout our country s turbulent past Many of these historical accounts of spectral hauntings and strange happenings were documented in early Australian newspapers and have been accurately transcribed in the pages of this book These ghostly sightings will challenge even the most ardent sceptic Many of these chilling events remain largely unexplained to this day Murder and mayhem mystifying mysteries haunted houses ghostly goldfields shocking tragedies pestering poltergeists strange and bizarre happenings they are all included Many of the historical ghost tales in this book have been forgotten through the passing of time Australia s Haunted History will bring these creepy tales back to life and spark the imagination of a new generation to ask that poignant question are ghosts real Old favourites have not been overlooked and several tales of well known Australian ghosts are included If you love a good ghost story Australia s Haunted History will keep you entertained for hours But be careful after reading this book you may need to sleep with the light on *Energy-aware Scheduling on Multiprocessor Platforms* Dawei Li,Jie Wu,2012-10-20 Multiprocessor platforms play important roles in modern computing systems and appear in various applications ranging from energy limited hand held devices to large data centers As the performance requirements increase energy consumption in these systems also increases significantly Dynamic Voltage and Frequency Scaling DVFS which allows processors to dynamically adjust the supply voltage and the clock frequency to operate on different power energy levels is considered an

effective way to achieve the goal of energy saving This book surveys existing works that have been on energy aware task scheduling on DVFS multiprocessor platforms Energy aware scheduling problems are intrinsically optimization problems the formulations of which greatly depend on the platform and task models under consideration Thus Energy aware Scheduling on Multiprocessor Platforms covers current research on this topic and classifies existing works according to two key standards namely homogeneity heterogeneity of multiprocessor platforms and the task types considered Under this classification other sub issues are also included such as slack reclamation fixed dynamic priority scheduling partition based global scheduling and application specific power consumption etc

Hybrid Intelligent Systems Ajith Abraham,Tzung-Pei Hong,Ketan Kotecha,Kun Ma,Pooja Manghirmalani Mishra,Niketa Gandhi,2023-05-24 This book highlights the recent research on hybrid intelligent systems and their various practical applications It presents 97 selected papers from the 22nd International Conference on Hybrid Intelligent Systems HIS 2022 and 26 papers from the 18th International Conference on Information Assurance and Security which was held online from 13 to 15 December 2022 A premier conference in the field of artificial intelligence and machine learning applications HIS IAS 2022 brought together researchers engineers and practitioners whose work involves intelligent systems network security and their applications in industry Including contributions by authors from over 35 countries the book offers a valuable reference guide for all researchers students and practitioners in the fields of Computer Science and Engineering
