Olive Trees ,2021-01-27 The Swiss photographer discovers a sculptural side to the olive trees that grow throughout the Mediterranean Swiss photographer Jacques Berthet born 1949 has long been interested in the olive tree for its botanical beauty and symbolic significance in a variety of cultures both ancient and modern However Berthet has remarked that he did not truly discover the real aesthetic possibilities of the olive tree until he visited Spain and decided to embark on a photography project documenting olive groves across the Mediterranean from the Alentejo region in Portugal to the Pleistos Valley at Delphi passing through Kabylia Tunisia to the Middle East in Israel and the West Bank The olive plants in Berthet s series appear not as horticultural specimens but as sculptures crafted by farmers in collaboration with nature In each photograph Berthet frames a single tree

against the backdrop of the greater grove in which it is situated creating an illustrative effect through the backlighting and black and white treatment

If you have been reading the ancient holy books you may find references to the groves of Olives and flourishing olive trees Olives have long been a part of human social tradition and they have been cultivated in gardens since time immemorial It was believed that olives could not flourish in lands which were 35 miles away from the sea because they needed a special type of climate But that is not really true because you can grow an olive tree in a place where there is plenty of water where the winters are mild and in areas with Mediterranean climates The native olive tree *Olea europaea* is considered to be a Mediterranean plant because after all the ancient Romans and the Greeks used olive leaves as an important symbol especially of peace Holding out an olive branch meant PAX and not war Even the gods blessed the olive tree and allowed it to flourish on their land making it prosperous through the sale of olives Archaeological surveys in Jordan on sites going back more than 5000 years have found domesticated olives in abundance So is it a surprise that a garden without an olive tree would be considered to be incomplete even in those ancient days Apart from using olives in a diet olive oil was also used since ancient times for cooking purposes Apart from that olive oil was used as a healthy massage oil by Romans Babylonians Egyptians and other ancient civilizations in ancient times
