The Origins of the Idea of Scientific Progress Daniel Špelda,2024-06-21 This volume offers a new interpretation of the genesis of the idea of scientific progress in early modern science and philosophy The interpretation argues that the idea of scientific progress was not a historical category but an epistemological one The main thesis of the book posits that the idea of scientific progress was a methodological means of dealing with the contingency of nature To illustrate the novelty of the idea the individual chapters compare several features of Renaissance natural philosophy with a new regime of knowledge that included time as an inevitable factor of empirical research The temporal regime of knowledge is illustrated by the work of Bernard de Fontenelle and his colleagues at the Académie des sciences in Paris at the end of the 17th century The new interpretation remedies a gap in recent scholarship where the idea of scientific progress has been overlooked even though the early modern natural philosophers themselves used it to describe the nature of their research The book places both well known texts and less studied documents in a new light thus contributing to the lively and rich debate on the origins and nature of early modern science and philosophy It is of interest to scholars studying the history of early modern philosophy and science

Toward the Origins of Christmas Susan K. Roll,1995 Christmas exerts an enormous attraction today even apart from its Christian character as a celebration of the incarnation of God in the Person of Jesus Even marginal or indifferent Christians crowd the churches on Christmas Eve and in highly commercialized and technologized Western societies the Christmas season is celebrated with enthusiasm Yet Christmas entered the calendar of feasts relatively late by 336 C E and the reason for its introduction and quick spread remain speculative and based on fragmentary evidence Towards the Origins of Christmas addresses both the contemporary Western celebration of Christmas and its deep historical roots in the church of the fourth century The book presents a thorough investigation of the patristic texts and evidence cited by liturgical scholars in the late 19th and 20th centuries to support two main theories the Calculation theory and the History of Religions theory This historical research is set in the framework of the contemporary experience of Christmas the dynamics of time and the liturgical year the inculturation of liturgy and underlying elements of dualism and patriarchal power paradigms which linger beneath the often commercial and sentimental character of Christmas today Susan K Roll was born in Clarence Center New York USA in 1952 She holds degrees in classical languages and pastoral theology and in 1993 received a Ph D from the Faculty of Theology of the Catholic University of Louvain Leuven Belgium summa cum laude with the gratulations of the jury She has taught and published in the field of liturgy sacraments pastoral theology and presently teaches at Christ the King Seminary Buffalo New York USA

The Origins of Contemporary France ... Hippolyte Taine,1890

The Origins of Violent Islamism. Can the “political Islam” be seen as a cause for violent religious extremism in the Middle East? Ulrich Roschitsch,2016-06-16 Seminar paper from the year 2015 in the subject Politics Region Near East Near Orient grade 1 0 University of Windsor Faculty of History course Introduction to the Arab culture language English

abstract Violent religious extremism is to be found nearly everywhere in human history Yet it seems today as if the Arab world and most lately Syria would be the hub of religiously motivated terrorist activities But where do these movements come from What are their roots The key assumption of this paper is that the origin of religious extremism but not necessarily religious extremism itself is to seek in the rise of political Islam in the middle of the 20th century Therefore the central question to answering the questions above is How could a constructive force like the political Islam lay the foundations for such a destructive force as is Islamist terrorism *The history of Israel, tr., ed. by R.
