Sacred Suicide Carole M. Cusack,2016-04-08 The label Suicide Cults has been applied to a wide variety of different alternative religions from Jonestown to the Solar Temple to Heaven's Gate Additionally observers have asked if such group suicides are in any way comparable to Islamist suicide terrorism or to historical incidents of mass suicide such as the mass suicide of the ancient community of Masada Organizationally and ideologically diverse it turns out that the primary shared trait of these various groups is a common stereotype of religion as an irrational force that pushes fanatics to undertake acts of suicidal violence Offering a valuable perspective on New Religious Movements and on religion and violence Sacred Suicide brings together contributions from a diverse range of international scholars of sociology religious studies and criminology
