Benjamin I. Page, 1996-06-15 Public deliberation is essential to democracy but the public can be fooled as well as enlightened In three case studies of media coverage in the 1990s Benjamin Page explores the role of the press in structuring political discussion Page shows how the New York Times presented a restricted set of opinions on whether to go to war with Iraq shutting out discussion of compromises favored by many Americans He then examines the media s negative reaction to the Bush administration s claim that riots in Los Angeles were

caused by welfare programs Finally he shows how talk shows overcame the elite media's indifference to widespread concern about Zoe Baird's hiring of illegal aliens Page's provocative conclusion identifies the conditions under which media outlets become political actors and actively shape and limit the ideas and information available to the public Arguing persuasively that a diversity of viewpoints is essential to true public deliberation this book will interest students of American politics communications and media studies

The Two Majorities and the Puzzle of Modern American Politics Byron E. Shafer, 2003 Where did the Era of Divided Government come from What sustains split partisan control of the institutions of

American national government year after year Why can it shift so easily from Democratic or Republican presidencies coupled with Republican or Democratic Congresses How can the vast array of issues and personalities that have surfaced in American politics over the last forty years fit so neatly within indeed reinforce the sustaining political pattern of our time These big questions constitute the puzzle of modern American politics The old answer a majority and a minority party plus dominant and recessive public issues will not work in the Era of Divided Government Byron Shafer a political scientist who is regarded as one of the most comprehensive and original thinkers on American politics provides a convincing new answer that has three major elements These elements in combination not divided government as a catch phrase are the real story of politics in our time The first element is comprised of two great sets of public preferences that manifest themselves at the ballot box as two majorities The old cluster of economic and welfare issues has not so much been displaced as simply joined by a second cluster of cultural and national concerns The second element can be seen in the behavior of political parties and party activists whose own preferences don't match those of the general public That public remains reliably left of the active Republican Party on economic and welfare issues and reliably right of the active Democratic Party on cultural and national concerns The third crucial element is found in an institutional arrangement the distinctively American matrix of governmental institutions which converts those first two elements into a framework for policymaking year in and year out In the first half of the book Shafer examines how dominant features of the Reagan first Bush Clinton and second Bush administrations reflect the interplay of these three elements Recent policy conflicts and institutional combatants in Shafer's analysis illuminate this new pattern of American politics In the second half he ranges across time and nations to put these modern elements and their composite pattern into a much larger historical and institutional framework In this light modern American politics appears not so much as new and different but as a distinctive recombination of familiar elements of a political style a political process and a political conflict that has been running for a much much longer time

Television and Social Transformation Kanwar Chauhan, 2001 With reference to India

Place Matters Peter Dreier, John H. Mollenkopf, Todd Swanstrom, 2001 The central thesis of *Place Matters* is that economic segregation between rich and poor and the growing sprawl of American cities and suburbs are not solely the result of individual choices in free markets Rather these problems have been powerfully shaped by short sighted government policies

Leadership and Politics Bryan D. Jones, 1989 In twelve essays influential scholars in political science explore the meaning of political leadership from the kaleidoscopic perspectives of the leaders institutions goals procedures problems and traditions involved The approaches as varied as the subject itself coalesce around the central question of how leaders interact with transform or are controlled by the organizations they lead

Feminism and the Politics of Literary Reputation Charlotte Templin, 1995 Soon after its publication in 1973 *Fear of Flying* brought Erica Jong immense popular success and media fame Alternately pegged sassy and vulgar Jong's novel embraced the politics of the women's liberation movement and challenged

the definition of female sexuality Yet today more than twenty years and several books later literary reputation continues for the most part to elude Jong Typecast by her adversaries as a media seeking sensationalist Erica Jong has been unfairly side stepped by academia Charlotte Templin contends In this carefully researched study augmented by personal interviews with Jong Templin assembles and analyzes the medley of responses to Jong s books by reviewers critics writers academics and the media by liberals conservatives and feminists She examines the diverse opinions on the merit and relevance to contemporary life of Fear of Flying the invocation of a high culture low culture dichotomy to discredit How to Save Your Own Life the anatomy of literary success with Fanny Jong s reception in a postfeminist age and the trivialization of Jong s works that is inevitable with mass media exposure Templin also shows how antagonistic reviewers tend to identify Jong with her fictitious characters a practice more common when the author is a woman and judge her to be guilty of the sin of not being a proper woman In turn she shows how reviewers reveal something of their own values and ideological biases in their critiques and how literary reputations are built destroyed and altered over time The first book to make a detailed examination of the reputation of a woman writer Feminism and the Politics of Literary Reputation provides an excellent case study for the literary reception of women writers within a broad cultural context Templin s analysis offers valuable insight into the reception of women writers especially commercially successful women writers and dramatically illustrates the relation of literary reputation to popular appeal and cultural mores
