Henry Melville Gwatkin

The Medieval Foundation:

The Medieval Foundations of England G.O. Sayles, 2019-06-26 Originally published in 1948 *The Medieval Foundations of England* is a chronological framework of the history of ideas and action during the medieval period. The book discusses the fundamental problems of medieval life in England, examining the agricultural foundation of England, the impact of the Anglo-Saxon and Scandinavian civilizations, the feudalization of society, and the interpenetration of Anglo-Saxon and Norman civilizations. The book also examines the issues faced by the New Monarchy of Henry II and the development of Parliament; it also examines how the intellectual Renaissance of the twelfth century affected medieval society. The book critically examines the historical sources of information and provides a reading list for each chapter.

The Medieval Foundations of International Law Dante Fedele, 2021-04-26 Dante Fedele's new work of reference reveals the medieval foundations of international law through a comprehensive study of a key figure of late medieval legal scholarship: Baldus de Ubaldis (1327-1400). A student of Bartolus de Sassoferrato, Baldus wrote both extensive commentaries on Roman canon and feudal law and thousands of consilia originating from particular cases. His writings dealt with numerous issues related to sovereignty, territorial jurisdiction, diplomacy, and war, combining a rich conspectus of earlier scholarship with highly creative ideas that exercised a profound influence on later juristic thought. The detailed picture of the international law doctrines elaborated by a prominent medieval jurist offered in this study contributes to our understanding of the intellectual archaeology of international law. Dr. Fedele's monograph will no doubt become a necessary work of reference for any scholar interested in the history of international law. Beyond the specific doctrines on particular areas of international law, Dr. Fedele's study of Baldus shows how, in the area of international governance, jurists sought to marshal different expressions of normativity. Alain Wijffels, Foreword.

The Medieval Foundation of England Arthur Bryant, 1967 *Survey of England's social life, habits, beliefs, and political development from earliest times to the early fifteenth century A.D.*

Medieval Foundations of International Relations William Bain, 2016-07-15 The purpose of this volume is to explore the medieval inheritance of modern international relations. Recent years have seen a flourishing of work on the history of international political thought, but the bulk of this has focused on the early modern and modern periods, leaving continuities with the medieval world largely ignored. The medieval is often used as a synonym for the barbaric and obsolete, yet this picture does not match that found in relevant work in the history of political thought. The book thus offers a chance to correct this misconception of the evolution of Western international thought, highlighting that the history of international thought should be regarded as an important dimension of thinking about the international, and one that should not be consigned to history departments. Questions addressed include: what is the medieval influence on modern conceptions of rights, law, and community? How have medieval ideas shaped modern conceptions of self-determination, consent, and legitimacy? Are there medieval answers to modern questions? Is the modern world still working its way through the Middle Ages? To what extent is the modern outlook genuinely

secular is there a theology of international relations what are the implications of continuity for predominant historical narrative of the emergence and expansion of international society Medieval and modern are certainly different however this collection of essays proceeds from the conviction that the modern world was not built on a new plot with new building materials Instead it was constructed out of the rubble that is the raw materials of the Middle Ages This will be of great interest to students and scholars of IR IR theory and political theory
