## **The Mediterranean Feud:**

**The Mediterranean Feud** Andrew Borowiec, 1983      **Bloodfeud in Scotland 1573-1625** Keith M. Brown, 2003-11-24

Feuding had an effect on the history of most of Europe Scotland provides a fascinating focus for the study of the bloodfeud because feuding survived until remarkably late there and thus is much better documented than in other European societies This examination of the Scottish evidence shows its relevance to the wider European community to which the Scots belonged reveals much about the nature of the bloodfeud in general and explores the changes in society which at last brought about its suppression The bloodfeud has been the subject of anthropological rather than historical investigation partly because it largely disappeared at an early stage in the development of literacy in Europe and has never been a fashionable research topic for historians In this study of fifteenth and sixteenth century feud in Scotland Keith Brown focuses on its context in society politics and the ideology that served to uproot the tradition The book will be of value to historians of many different cultures and periods      **Cohesive Force** Jacob Black-Michaud, 1975      *The Great Edwardian Naval Feud* Richard Freeman, 2009 This is the story of the clash between two gigantic personalities in the early years of the 20th century On one side was Admiral Lord Charles Beresford On the other side was the First Sea Lord Admiral Sir John Fisher      **Homicide in the Biblical World** Pamela Barmash, 2005 Homicide in the Biblical World analyses the treatment of homicide in the Hebrew Bible and demonstrates that it is directly linked to the unique social structure and religion of ancient Israel Close parallels between biblical law and ancient Near Eastern law are evident in the laws of the ox that gored and the pregnant woman who is assaulted but when the total picture of the process by which homicide was adjudicated comes into view what is most noticeable is how little of it is similar to ancient Near Eastern law This book reconstructs biblical law from both legal texts and narrative texts and analyses both the law collections and documents from actual legal cases from the ancient Near East
