

THE DR. MENGELE HOAX

The Mengele Hoax

James McConnachie, Robin Tudge

The Mengele Hoax:

THE VATICAN CONSPIRACY Peter Kross, 2018-02-04 The Vatican Conspiracy Intrigue in St Peter's Square tells the untold story of the secret Vatican US connection from World War II to the 1980s under President Reagan. You will learn a little known story of an American military officer who was killed some say by his own men in Italy during the war culminating in a congressional investigation when the war ended. You will learn of James Angleton's work as an American spy in Italy during the war and his relationship with the Church and how the OSS infiltrated agents into the Vatican to aid the efforts to oust Hitler. Kross then goes extensively into the so called Rat Line which allowed Nazi leaders like Josef Mengele, Klaus Barbie and Adolf Eichmann to escape to South America with the help of the US. The book covers Operation Paperclip and Operation Safehaven in which Switzerland laundered money from Germany in order to pay that nation's cost of the war. The final chapters delve into the most recent intrigues in the Vatican including the attempted assassination of Pope John Paul II in Rome and who might have been behind it, the Soviet Union or Bulgaria and the mysterious death of Pope John Paul I in Rome who died after serving only 33 days in office. Also covered is the Vatican Bank scandal involving Roberto Calvi and an American Bishop named Paul Marcinkus. The final chapter involves the murders of two Swiss Guardsmen by one of their own men. This is a tale that most readers of history do not know but one that must be told. History is never what it seems to be, not cut and dried, not exactly what we were led to believe. *The Rough Guide To Conspiracy Theories* James

McConnachie, Robin Tudge, 2008-09-01 Everything you think you know is a lie. Or is it? *The Rough Guide to Conspiracy Theories* is the definitive guide to the world's most controversial theories. With updated information on all the most infamous conspiracies from phony crucifixions to who really did kill JFK, this fully updated guide also covers the murders of Alexander Litvinenko and Benasir Bhutto, the London bombings and the Iraq War as well as the inquest into Princess Diana's death. The guide is a thoroughly researched exploration into this fascinating and at times amusing phenomenon with fascinating discourse and a keen sense of the satirical. For both the believers and the cynics, *The Rough Guide to Conspiracy Theories* sorts the myths from the realities. *The Mengele Hoax* Ray V. Waymire, 1990-06-01 *Rough Guide to Conspiracy Theories, The (3rd)* James McConnachie, Robin Tudge, 2013-02-01 Fully revised and updated *The Rough Guide to Conspiracy Theories* sorts the myths from the realities, the allegations from the explanations and the paranoid from the probable. Who might be trying to convince us that climate change is or isn't real? What is the truth behind the death of Osama bin Laden and is he still alive? When did the CIA start experimenting with mind control? Where is the HAARP installation and did it have anything to do with the Japanese tsunami disaster? Why is surveillance in our cities and online so widespread and what are the real benefits? This definitive guide to the world's most controversial conspiracies wanders through a maze of sinister secrets, suspicious cover-ups, hidden agendas and clandestine operations to explore all these questions and many, many more. Mengele Ben Abraham,1994 *DNA and the Hunt for Britain's Most Evil Criminals* Ron Mackenna,2002 How well do you REALLY know your neighbours RIGHT NOW around 600 unconvicted murderers are living quiet respectable lives in Britain Killers like Ian Lowther who married brought up a daughter and led a law abiding life in the 23 years after brutally murdering Mary Gregson Men who in the past could have relaxed in the certain knowledge that they would never be caught When the police finally came for Lowther at his house overlooking the very canal where he murdered Gregson it wasn't due to a tip off or confession it was a scientific breakthrough This remarkable case is not unique In the 10 years since the discovery and development of DNA testing fragments of evidence dating from past decades have been brought out of police store rooms dusted down and tested Samples like the one that caught Lowther a tiny spec lying at the bottom of the Leeds to Liverpool canal with Gregson's body were brought back to life to finger the killers This is the story of how those breakthroughs changed the face of the world It is the story of DNA and the race to bring down some of Britain's most evil criminals

The Wiesenthal File Alan Levy,1994 Simon Wiesenthal spent four and a half years in Nazi concentration camps during World War II Eighty nine family members and relatives were exterminated and he himself ended the war a living skeleton Almost fifty years later Wiesenthal remains undauntedly committed to the cause of justice for the Jewish people and to the pursuit of Nazi war criminals The cases he has pursued are many he has brought eleven hundred Nazis to trial and his name has frequently hit world headlines in connection with such figures as Adolf Eichmann Franz Stangl Josef Mengele and Kurt Waldheim Of his enormous personal courage there is no doubt But so long after the war is Wiesenthal's work still important Does it have meaning Is he making a positive contribution to post Holocaust Judaism Wiesenthal's answer is resolute We live in a modern world We know there is pollution The air is bad the water is bad the skies are dirty But there is another sort of pollution that people ignore In many countries people are living between murderers and that is the biggest pollution of all This book by internationally known author and journalist Alan Levy an acquaintance of Wiesenthal for many years is the first critical examination of Wiesenthal's life and work The story of Wiesenthal's pursuit of war criminals often detailed in Wiesenthal's own words offers reading as exciting as any thriller But *The Wiesenthal File* is much more than that It is an examination by an independent minded Jew of the work of one of the greatest Jewish figures of our century
