Rives,Richard A. Gittins,Kirk L. Davies,1996 Today s Air Force commander faces a complex set of laws regulations and rules which directly impact the exercise of command Traditionally a commander s primary legal concern was the fair administration of military justice Now virtually every problem that crosses a commander s desk is tied to some legal issue from environmental law to labor law to operations law Commanders literally see it all This deskbook contains a series of papers that will give commanders a starting point for the wide array of issues they will handle Each article is intended to give a commander a working knowledge of the law on each subject The papers are not designed to make the commander a legal expert nor to resolve specific questions relating to any unique problems After reviewing the materials in this deskbook commanders should always contact their Staff Judge Advocate for personal assistance with specific issues Preface     **The Military Commander and the Law** Air Force Air Force The Judge Advocate 's School,Air Force the Judge Advocate General's,2017-10-19 Released October 2017 This is

Volume 1 of 2 of the Military Commander and the Law is a publication of The Judge Advocate General's School. This publication is used as a deskbook for instruction at various commander courses at Air University. It also serves as a helpful reference guide for commanders in the field providing general guidance and helping commanders to clarify issues and identify potential problem areas. Includes Chapters 1 thru 10. The concept of command carries dual functions Legal authority over people including power to discipline Legal responsibility for the mission and resources. The books we publish cover a wide range of topics from acquisition to logistics primarily for government agencies and constitute the best practices. This holistic approach to military publications continues to grow as we find new updates to outdated publications. Why buy a book you can download for free. We print this book so you don't have to. First you gotta find a good clean legible copy and make sure it's the latest version not always easy. Some documents found on the web are missing some pages or the image quality is so poor they are difficult to read. We look over each document carefully and replace poor quality images by going back to the original source document. We proof each document to make sure it's all there including all changes. If you find a good copy you could print it using a network printer you share with 100 other people typically its either out of paper or toner. If it's just a 10 page document no problem but if it's 250 pages you will need to punch 3 holes in all those pages and put it in a 3 ring binder. Takes at least an hour. It's much more cost effective to just order the latest version from Amazon.com. This book includes original commentary which is copyright material. Note that government documents are in the public domain. We print these large documents as a service so you don't have to. The books are compact tightly bound full size 8 1/2 by 11 inches with large text and glossy covers. 4th Watch Publishing Co is a SDVOSB [www.usgovpub.com](http://www.usgovpub.com)
