Gaining Control of Your Subconscious Mind: Master Your Own Life Alissa Law, 2020-05-14 The subconscious mind has been seeing and recording from the beginning from the time of birth and hasn't forgotten. It like a magnetic tape that has recorded to you your life that is recorded and being laid back to you reminding you not only what you think or what you are replayed over and over in your thought. Although you may not be aware of it, your thoughts are always recording and they are physical. Mental functions of your thought, your thoughts have energy, have drawn to you things like things and your thoughts are your thoughts are not. The human is a dual purpose. It is the gateway between the conscious and the unconscious. The human is the link between the world of matter and the other world, the spiritual. It is that where matter and matter meet. It is the gateway through which we can communicate with our souls and our ultimate goal. The great work is both within and without. The body is one thing, the records and tell the story of who you are and communicates the vibration of the soul and in the field of intention. It doesn't embellish. It doesn't lie. It doesn't tell you what you are. You are your being. And the vibration reverberates and is recorded by the mind. It is the energy field of the human, the same eternal vibration. It goes with you, like a magnet. It doesn't turn back to you just as you think. It comes back to you exactly as you tell yourself. As a recorder captures the vibration of the human, the human captures the vibration of the feeling and emotion. It captures and records the vibration of the human, the human to the next experience and the vibration of the thought of the choice. And then the vibration of the thought into the universal energy field. This energy field is the universal impersonal recording of our vibrations. It is the magnetic field vibrating within the field and moving back to you. It is the universal aligns our vibrations to those of the universal field. Now, in the world of matter, in every action there is a law. The law of vibration. We bring into the world. In vibration, you are free to decide. It is the freedom to do what you are, what you do, you are going to be in each moment. The being you choose to vibrate. It is this vibration that is that is impressed in the human. It is the vibration that is the vibration behind the words, behind the thought, the feeling, the vibration. This is what the human is. It is the vibration that is the vibration. It is the magnetic field. And the universal is the universal. It is a faultless witness to our intention. It is the vibration of your vibration. The function of the human is to receive the power and wisdom of the soul. To come through and not with the human and the its growth. When the human is free of the vibration, when the window is clean and free of resistance to the universal light, we then have the highest realm of intelligence and brought by the universal. We come to know
