**The Omega Terror** Nick Carter, 1973-01-01      *The Omega Prophecy* David Paul, 2020-10-07 David Paul follows in the tradition of spiritual thrillers pioneered by Charles Williams *War in Heaven* and Frank Peretti *This Present Darkness* and blends the realm of angels and demons with 21st century bio warfare The action is compelling and the stakes go beyond the world souls hang in a delicate balance between heaven and hell It takes great discipline on the part of the reader to set this book down at night and go to bed As observed by Professor Emeritus Francis C Rossow of Concordia Seminary St Louis MO If you like the novels of Stephen King Frank Peretti J R R Tolkien and C S Lewis then *Plague of Terror* is the book for you If you like the novels of Stephen King Frank Peretti J R R Tolkien and C S Lewis then *Plague of Terror* is the book for you Francis C Rossow Professor Emeritus Concordia Seminary St Louis Missouri *Plague of Terror* is one of those books that grabs you Michael J Chapman author and national lecturer on public education and revisionist history      [Anti-american Terrorism: From Eisenhower To Trump - A Chronicle Of The Threat And Response: Volume I: The Eisenhower Through Carter Administrations](#) Dennis A Pluchinsky, 2020-03-23 Pluchinsky s first volume focusing on anti American terrorism is a densely packed and comprehensive look at one of the most complex US national security challenges our nation faces It reflects the evolving nature of terrorism that has changed with the politics technology and media during this tumultuous period in US history The book is also a thorough accounting of how US policymakers attempt to find solutions to address this dynamic issue A broad spectrum of terrorism experts policymakers and casual reads will undoubtedly find noteworthy facts about terrorist attacks that targeted US interest abroad and at home in this volume Pluchinsky s level of detail and strong qualitative methodology makes this work an essential desk reference for any serious terrorism scholar *Studies in Intelligence* This is a truly magisterial work of scholarship By pulling all this material together in one place and by organizing it so accessibly Pluchinsky has performed an invaluable service for researchers and counter terrorism practitioners alike the real selling point is the factual content Pluchinsky has written the definitive contextual history of US counter terrorism policy and these volumes and I confidently expect the two companion volumes still to come deserve a place in every serious library of terrorism *Critical Studies on Terrorism* One of the major international security concerns that surfaced in the post World War II period was the emergence and evolution of international terrorism The dominant theme in the evolution of this threat has been anti American terrorism No other country in the world has had its overseas interests subjected to the level lethality diversity and geographic scope of international terrorist activity than the United States This four volume work recounts the development of this threat through 12 US presidential administrations over a 70 year period It assesses the terrorist threat in the US and overseas and how the government has responded with counter terrorism policies strategies programs organizations legislation international conventions executive orders special operations units and actions The evolution of the field of terrorism in academia think tanks institutes and the private sector over these 12 administrations is also chronicled

**The SAGE Encyclopedia of Terrorism, Second Edition** Gus Martin, 2011-06-15 Six years after publication of the first edition of the best selling Encyclopedia of Terrorism much has changed on the national security scene Despite the dark promises of Osama bin Laden following the 9 11 attacks the United States has not experienced any major domestic terror incidents Al Qaeda itself is believed to be a severely crippled organization But while U S wars in Afghanistan and Iraq not to mention the arrival of the Obama administration a new balance of power within Congress and an increasingly fragile economic picture have significantly affected the national security picture the threat of economic chaos and massive loss of life due to terror attacks has not abated Indeed in July 2008 analysts pointed out that even a relatively small terrorist organization could present a dire threat with some experts arguing that a biological chemical or even nuclear attack on a major U S city is all but inevitable In this highly charged rapidly shifting environment we are pleased to present the The SAGE Encyclopedia of Terrorism Second Edition a thoroughly updated and expanded edition of the original highly regarded reference work Nearly 100 000 words of new material will be added along with fully updated original entries and expanded coverage New introductory essays will explore the impact of terrorism on economics public health religion and even pop culture Ethical issues such as the role of torture in interrogations competing notions of security versus liberty and the debates over FISA legislation and Guantanamo Bay will also be covered Two dozen entries on significant recent events such as the London bombings Chechen attacks on Russian interests and the rescue of Ingrid Bettancourt and some 60 additional new entries will restore the work as an up to the minute natural first stop for researchers
