Medieval Empire Herbert Fisher, 2018-01-19 I do not aspire to recount the narrative of the empire or to instruct trained historians Nor do I propose to trace the history of the imperial idea which Mr Bryce has exhibited in a work which it would be impertinence in me to commend My object is to examine the working of the imperial idea during that portion of medieval history when having assumed a definite theological shape it operated as a powerful influence over the destinies of Germany and Italy I wish to see how the machine of imperial government worked in these countries from the revival of the empire by Otto I to the downfall of the Hohenstauffen dynasty It seemed however necessary by way of introduction to explain why the empire survived at all and why it was revived in 962 *The Medieval Empire in Central Europe* Herbert Schutz, 2010-02-19

This book offers a concise yet detailed political history of medieval Central Europe as it traces the history of the Medieval Empire from its inception as a kingdom during the early 10th century to its formation as Roman Empire its support of the papacy its struggle with the papacy for supremacy the shift of its centre of gravity to Italy and its demise into particularist parts by the middle of the 13th century It surveys the three dynasties which ruled the Post Carolingian Empire and follows the political emergence of a disjointed region through its crystallization into an independent kingdom to become by the year 1000 the strongest military and political power in Europe ultimately called upon to stabilize the political unrest in Italy As Roman emperors the kings ordered the affairs of the city of Rome and bolstered the spiritual and political position of the popes until several competent popes turned the papal dependency into its primacy and enforced the subordination of the secular authorities The Crusades helped to play great military and political power into papal hands so that the secular authority declined as the monarchy lost interest in Germany and became focused on Italy and especially on Sicily **The**

The Medieval Empire, Vol. 2 (Classic Reprint) Herbert Fisher,2017-11-08 Excerpt from The Medieval Empire Vol 2 Now it was an integral part of the conception of the imperial office that the emperor should extend the boundaries of the Church and do battle against the heathen In all the manuals written during the break up of the Carolingian empire for the guidance of princes as well as in the prayer offered by the Church this duty is enjoined with a mournful and a monotonous emphasis It the coronation service of Otto I In the Cathedral of Aix the Archbishop of Treves goes to the altar takes thence a sword and a belt and turning towards the king says to him Receive this sword by which you may cast out all adversaries of Christ all barbarians and evil Christians since full power of the whole empire of the Franks has been given you by divine authority to the most firm peace of all Christians And this missionary and military obligation is firmly enjoined in all the orders for the coronation service of a German king or a
