## **The Medieval Monasteries Of Yorkshire:**

The Medieval Monasteries of Yorkshire Joan Spence, Bill Spence, 1981      **The Late Medieval Cistercian Monastery of Fountains Abbey, Yorkshire** Michael Spence, 2020 Founded in 1132 Fountains Abbey became the wealthiest English Cistercian monastery yet relatively little analysis has been made of its surviving records to investigate how its wealth was controlled and sustained This book deals with this secular aspect of the religious community at Fountains investigating in particular the way in which prosaic business records were compiled and redacted It traces the transmission of data from original charters through successive versions of cartularies and in the process establishes the existence of a previously unknown manuscript It also reveals how abbots in the fifteenth century interacted with and adapted the records in their care In this process two quite different aspects of monastic life are uncovered First it sheds new light on the history of Fountains Abbey through the fourteenth and fifteenth centuries amongst other things how it responded to the turmoil of the Black Death and discloses for the first time the allegiance of one abbot to the Lancastrian cause during the Wars of the Roses Second it reveals the worldly skills shown by the community of Fountains that were successfully applied to exploit the monastery's large landholdings across Yorkshire mainly through wool and agricultural production but also through fisheries tanning mining and metalworking The economic success of these activities enabled the abbey to become a prosperous institution which rivalled the wealth of the aristocracy This book addresses recordkeeping and archival memory at one Cistercian monastery albeit a well endowed and prosperous one in the north of England However its treatment of archival sources could be extended to other houses in different geographical locations and different orders to enable comparisons between monasteries dealing with economic change and social and political upheaval in the later Middle Ages      *Medieval Monasteries* J. Patrick Greene, 2005-10-01 This book provides an account of the archaeology of medieval monastic houses throughout Great Britain and Ireland The application of a wide range of archaeological techniques allied to historical investigation has awakened interest in monasteries Important new sources of information have transformed knowledge of monastic life As well as discussing many of the advances made by research over the last two decades innovative methods of archaeological investigation are described and examples of good practice in the preservation of sites and their interpretation to visitors are provided Suggestions for further research examples of outstanding monastic sites to visit a glossary of terms a comprehensive bibliography and an index are also included      **The Artefacts of Urban and Rural Medieval Monasteries in Yorkshire**, 2007      **Monasteries in the Landscape** Mick Aston, 2009-09-15 The beginnings and development of Monasteries in the Landscape      *The Medieval Monastery* Roger Rosewell, 2012-11-20 Monasteries are among the most intriguing and enduring symbols of Britain's medieval heritage Simultaneously places of prayer and spirituality power and charity learning and invention they survive today as haunting ruins great houses and as some of our most important cathedrals and churches This book examines the growth of monasticism and the different orders of monks the architecture

and administration of monasteries the daily life of monks and nuns the art of monasteries and their libraries their role in caring for the poor and sick their power and wealth their decline and suppression and their ruin and rescue With beautiful photographs it illustrates some of Britain's finest surviving monastic buildings such as the cloisters of Gloucester Cathedral and the awe inspiring ruins of Rievaulx Abbey in North Yorkshire

**Monastic and Religious Orders in Britain, 1000-1300** Janet Burton, 1994-01-28 This book traces the development of monasticism in England Scotland and Wales from the last half century of Anglo Saxon England to 1300 It explores the nature of the impact of the Norman settlement on monastic life and how Britain responded to new European ideas on monastic life In particular it examines Britain's response to the needs of religious women It covers every aspect of the life and work of the religious orders their daily life the buildings in which they lived their contribution to intellectual developments and to the economy Particular attention is paid to the relationship between religious houses and their founders and patrons This shows the degree of dependence of religious houses on local patrons Indeed one major theme which emerges from the book is the constant tension between the ideals of monastic communities and the demands of the world

**Monastic Wales** Janet Burton, Karen Stöber, 2013-03-30 Monastic Wales new approaches is an interdisciplinary collection of essays written by some of the leading scholars working on aspects of medieval Welsh history The chapters in this volume consider the history archaeology architecture and wider cultural social political and economic context of the religious houses of Wales between the Norman conquest in the eleventh century and the dissolution of the monasteries in the sixteenth

**Mount Grace Priory: Excavations of 1957-1992** Glyn Coppack, Laurence Keen, 2019-10-15 Owned by the National Trust and managed by English Heritage Mount Grace Priory in North Yorkshire established in 1398 and suppressed in 1539 was one of only nine successful Carthusian monasteries in England and one of the best preserved medieval houses of that order in Europe First excavated by Sir William St John Hope in 1896 1900 and in state guardianship since 1955 it is acknowledged as a type site for late medieval Carthusian monasteries The modern study of Mount Grace began in 1957 when Hope's interpretation of the monks' cells about the great cloister was found to be simplistic This was followed between 1968 and 1974 by the excavation of individual monks' cells in the west range of the great cloister and two cells in the north range together with their gardens areas not excavated by Hope The examination of the monks' cells was completed in 1985 by the

excavation of the central cell of the north cloister range together with its garden and the cloister alley outside the cell. The cultural material recovered from these cells indicated the trade each monk practiced predominantly the copying and binding of books. Because each cell was enclosed by high walls the pottery and metalwork recovered could be identified to an individual monk. In 1987 English Heritage commissioned the re excavation of two areas that had been examined by Hope the water tower in the great cloister and the prior's cell refectory and kitchen in the south cloister range and the guest house in the west range of the inner court. The contrast between this semi public area of the monastery and the monks cells was dramatic. Coupled with this excavation was a reappraisal of the architectural development of the monastery and reconstruction of lost structures such as the cloister alley walls and the central water tower. Human Flourishing Greg Forster, Anthony R. Cross, 2020-08-28. Beyond an internal transformation or mere moment of salvation how does Christian faith envision the good life. This question demands not only a Christian view of how individuals should live but of how social institutions are best arranged for human flourishing. In the advanced modern world our common public life is mainly lived out in the domains of work and commerce so a Christian view of economic life is essential to a modern Christian view of human flourishing. In this volume established evangelical scholars in theology biblical studies and history explore their disciplines in connection with economic wisdom to yield insights about what it means to live wholly fruitfully and well. Faithful and provocative these essays uncover fresh ground on topics ranging from poverty to work ethic to capitalism socialism to slavery to non profit entities to the medieval indulgence industry. *English Monastic Life* Francis Aidan Gasquet, 2021-05-18.
