## **The Metropolis:**

**The New Century of the Metropolis** Thomas Angotti, 2013 The problems created by metropolitanization have become increasingly apparent Strategies are needed to improve the world's major cities in the twenty first century Tom Angotti is fundamentally optimistic about the future of the metropolis but questions urban planning's inability to integrate urban and rural systems its contribution to the growth of inequality and increasing enclave development throughout the world Using the concept of urban orientalism as a theoretical underpinning of modern urban planning grounded in global inequalities Angotti confronts this traditional model with new progressive approaches to community and metropolis

**From the Factory to the Metropolis** Antonio Negri, 2018-03-16 This second volume of a new three part series of Antonio Negri's work is focussed on the consequences of the rapid process of deindustrialisation that has occurred across the West in recent years In this volume Negri investigates exactly what happens when the class subjects of industrial capitalism are demobilised and the factories close Evidently capital continues to make profit but how and where According to Negri the creation of value extends beyond the factory walls to embrace the whole of society the mass worker of industrialism gives way to the socialised worker operaio sociale and the terrain of exploitation now becomes the whole of human life In postmodernity the metropolis becomes the privileged arena of value extraction We must therefore understand the global city with its stratifications its enclosures and its resistances Old categories of the private and the public are inadequate to describe the new matrix of production which is characterised rather by the common the productive space of cognitive and immaterial labour Today's metropolis can be defined as a space of antagonisms between forms of life produced on the one hand by finance capital the capital that operates around rents and on the other by the cognitive proletariat The central question is then how the common of the latter can be mobilised for the destruction of capitalism In an analysis that runs from the Italian workerism operaismo of the 1970s to the present day *From the Factory to the Metropolis* offers readers valuable insight into the far reaching impact of deindustrialisation presenting both the challenges and opportunities It will appeal to the many interested in the continuing development of Negri's project and to anyone interested in radical politics today

*Ornaments of the Metropolis* Henrik Reeh, 2006-09-08 Variations on the theme of the ornament in Kracauer's urban writings suggesting ways in which the subjective can reappropriate urban life For Siegfried Kracauer the urban ornament was not just an aspect of design it was the medium through which city dwellers interpreted the metropolis itself In *Ornaments of the Metropolis* Henrik Reeh traces variations on the theme of the ornament in Kracauer's writings on urbanism from his early journalism in Germany between the wars to his sociobiography of Jacques Offenbach in Paris Kracauer 1889-1966 often associated with the Frankfurt School and the intellectual milieu of Walter Benjamin is best known for his writings on cinema and the philosophy of history Reeh examines Kracauer's lesser known

early work much of it written for the trendsetting newspaper Frankfurter Zeitung in the 1920s and early 1930s and analyzes Kracauer's continuing reflections on modern urban life through the pivotal idea of ornament Kracauer deciphers the subjective experience of the city by viewing fragments of the city as dynamic ornaments an employment exchange a day shelter for the homeless a movie theater and an amusement park become urban microcosms Reeh focuses on three substantial works written by Kracauer before his emigration to the United States in 1940 In the early autobiographical novel *Ginster* Written by Himself a young architect finds aesthetic pleasure in the ornamental forms that are largely unused in the profession of the time The collection *Streets of Berlin and Elsewhere* with many essays from Kracauer's years in Berlin documents the subjectiveness of urban life Finally Jacques Offenbach and the Paris of His Time shows how the superficial in a sense ornamental milieu of the operetta evolved into a critical force during the Second Empire Reeh argues that Kracauer's novel essays and historiography all suggest ways in which the subjective can reappropriate urban life The book also includes a series of photographs by the author that reflect the ornamental experience of the metropolis in Paris Frankfurt and other cities
