In Defense of Love Ron Rosenbaum,2024-09-17 Rosenbaum offers a spirited and enjoyable defense of his version of love The Wall Street Journal A stirring manifesto on love in the modern age now available for the first time in paperback In a work of ambition and brio legendary journalist Ron Rosenbaum tackles his hardest topic yet everyone s favorite four letter word He begins by investigating the neuroscience of love arguing that our understanding of love is imperiled by quantification and algorithms which distill our behavior into mathematical formulas our personality into brain chemical categories and our curiosity into quiz questions The very capacity that makes us human Rosenbaum posits is being taken over by numbers To save it he turns to literature and pop culture discussing writing about love from a vast range of sources including Tolstoy novellas trailblazing Updike manuscripts David Foster Wallace and Chrissie Hynde Part of love s essence is its mystery says Rosenbaum and when he eventually finds his own answer to the riddle of love a happy ending it turns up in a completely unexpected place In Defense of Love is more than an examination of the intersection of love with literature and science It is a celebration of the uncanny and the persistent the sublime and the ridiculous the inexorable power of love
