Shadow Libraries Joe Karaganis, 2018-05-04 How students get the materials they need as opportunities for higher education expand but funding shrinks From the top down Shadow Libraries explores the institutions that shape the provision of educational materials from the formal sector of universities and publishers to the broadly informal ones organized by faculty copy shops student unions

and students themselves It looks at the history of policy battles over access to education in the post World War II era and at the narrower versions that have played out in relation to research and textbooks from library policies to book subsidies to more recently the several open publication models that have emerged in the higher education sector From the bottom up Shadow Libraries explores how simply students get the materials they need It maps the ubiquitous practice of photocopying and what are in many cases the more marginal ones of buying books visiting libraries and downloading from unauthorized sources It looks at the informal networks that emerge in many contexts to share materials from face to face student networks to Facebook groups and at the processes that lead to the consolidation of some of those efforts into more organized archives that circulate offline and sometimes online the shadow libraries of the title If Alexandra Elbakyan s Sci Hub is the largest of these efforts to date the more characteristic part of her story is the prologue the personal struggle to participate in global scientific and educational communities and the recourse to a wide array of ad hoc strategies and networks when formal authorized means are lacking If Elbakyan s story has struck a chord it is in part because it brings this contradiction in the academic project into sharp relief universalist in principle and unequal in practice Shadow Libraries is a study of that tension in the digital era Contributors Bal zs Bod Laura Czerniewicz Mirosław Filiciak Mariana Fossatti Jorge Gemetto Eve Gray Evelin Heidel Joe Karaganis Lawrence Liang Pedro Mizukami Jhessica Reia Alek Tarkowski **Capturing Finance** Carolyn Hardin,2021-07-09 Arbitrage the trading practice that involves buying assets in one market at a cheap price and immediately selling them in another market for a profit is fundamental to the practice of financial trading and economic understandings of how financial markets function Because traders complete transactions quickly and use other people s money arbitrage is considered to be riskless Yet despite the rhetoric of riskless trading the arbitrage in mortgage backed securities led to the 2008 financial crisis In Capturing Finance Carolyn Hardin offers a new way of understanding arbitrage as a means for capturing value in financial capitalism She shows how arbitrage relies on a system of abstract domination built around risk The commonsense beliefs that taking on debt is necessary for affording everyday life and that investing is necessary to secure retirement income compel individuals to assume risk while financial institutions amass profits Hardin insists that mitigating financial capitalism s worst consequences such as perpetuating class and racial inequities requires challenging the narratives that naturalize risk as a necessary element of financial capitalism as well as social life writ large *Scholarly Communications Report* ,2005 *The Business Quarterly* ,1971 **The Literary World** ,1892 *English Mechanic and World of Science* ,1899 *Bible in the World* ,1952 *Bookbinding & Book Production* ,1963 **The American Mercury** ,1927 *British Books* ,1910 *How to Buy and Sell Old Books* American Life Foundation,1965 **Stenographer and Phonographic World** ,1892 *The Book Trade of the World: Asia* Sigfred Taubert,Peter Weidhaas,1972 *The New York Times Book Review* ,1979 Presents extended reviews of noteworthy books short reviews essays and articles on topics and trends in publishing literature culture and the arts Includes lists of best sellers hardcover and paperback *The Bookseller*
