[Tax Reforms in EU Member States 2012](#) European Commission. Directorate-General for Economic and Financial Affairs, European Commission. Directorate-General for Taxation and Customs Union, 2012 The report is prepared jointly by DG ECFIN and DG TAXUD of the European Commission As the previous editions the report analyses recent trends in tax revenues and tax reforms in EU Member States

A particular focus of this year's edition is the analysis of the EU VAT system and tax policy challenges faced by EU Member States. The report examines the economic and policy implications of the EU VAT system of which it provides an overview of the history and possible future. It analyses welfare gains and economic benefits from simplifying VAT procedures and reviews options to reduce VAT fraud and evasion. Applying an indicator based approach the report identifies horizontal challenges that EU Member States are currently facing in the area of tax policy. These relate to i) fiscal consolidation on the revenue side and growth friendly tax structures ii) broadness of tax bases in both direct and indirect taxation with a particular focus on corporate tax expenditure iii) the need to improve tax governance and iv) specific tax issues namely housing taxation environmental taxation and some redistributive aspects of taxation. Structures of the Taxation Systems in the European Union European Commission. Directorate-General for Taxation and the Customs Union, 2006. This publication contains time series of tax data from national accounts for the 25 EU member states and Norway covering the period 1995-2004 available in the European System of Accounts ESA95 format. It gives a breakdown of taxes according to three types of classification by major type of tax such as direct and indirect taxes and social contributions by level of government central state and local government social security funds and the European institutions and by economic function consumption labour and capital. It also includes implicit tax rates on consumption labour capital and energy consumption.
